1. Cut along the solid black lines around the outside of the car
2. Fold along the dotted lines
3. For the tabs marked with letters cut along the solid black line which goes half way but don't cut all the way through
4. Find the tabs with matching letters and lock them together by sliding the cut section of one through the cut section of the other.

Don't worry if you accidentally cut a 'fold' line! You can save the day with a piece of tape.
