

Instructions

1. Fold along line A, then open the card back up and fold along line A the other way. Run a ruler over your creases to make them really firm.
2. Keep the page folded and hold it so you can see this side with the instructions.
3. Cut along lines B and C.
4. Lift up the tab (labelled *STAGE*) you have now cut out.
5. Fold it along line D.
6. Flip the whole card over and fold the *STAGE* over line E.
7. Open the card out.
8. Gently start to fold the card along line A but keep the card half open so you can still see these instructions.
9. Push your cut section (labelled *STAGE*) from the back side (blank) of this card) towards you. It should pop out.
10. Fold the card closed with your stage inside the card.
11. *Decorate your card!*
