

Dr Hadi Moztarzadeh, Senior Technology Officer

Dr Hadi Moztarzadeh is the Senior Technology Officer (STO) at WMG centre High Value Manufacturing (HVM) Catapult, where he leads WMG's cross-Catapult portfolio and shape the technology strategy of WMG and HVM Catapult. Hadi forms a core part of the STO Forum within the HVM Catapult structure and is the lead STO on the Net Zero Transportation Strategy Team and the Automation & Robotics Technology Team. Hadi represents WMG on a number of other cross-Catapult teams, including "Digital Engineering" and "Circular Economy" Strategy Teams, where he leads academic engagement activities and provides transport-sector leadership. He is a member of the HVM Catapult's Academic Liaison Group and an organising committee member of the UK Manufacturing Forum (UKMF). Hadi also leads WMG HVM Catapult's Industrial Skills strategy.

Prior to joining the HVM Catapult, Hadi was a Course Manager for the Applied Engineering Programme at WMG, University of Warwick, where he led a number of initiatives in the industrial degree apprenticeship programme for Automotive, Aerospace, Rail and other sectors.

Dr Moztarzadeh is a Chartered Mechanical Engineer (CEng, IMechE) and gained his PhD in Engineering from the University of Warwick and his MSc in Mechanical Engineering and Industrial Management from the University of Sheffield.
