

# 8TH ANNUAL EDUCATION STUDIES POSTGRADUATE RESEARCH CONFERENCE

Friday-Saturday, 23-24 April 2021  
Online

## "Frontiers of Education and Activism"

The 8th Education Studies PGR Conference offers a dynamic environment for Postgraduate Research (PGR) students to showcase and discuss their research. The conference is open to research postgraduates at all stages of their programme, from a variety of disciplines, and from all universities, whose research connects with education in its broadest sense.

We invite you to consider how your research makes a difference – in theory, professional practice, methodology, and other illuminating perspectives. There will be renowned keynote speakers, abstract presentations, discussions, and question-and-answer sessions.

We would like to note that we are paying particular attention to equality and diversity issues at this conference, and we are using evidence-based guidance to produce an inclusive conference, within our means.

**Dr Abdullah Sahin**
