

**WARWICK**  
THE UNIVERSITY OF WARWICK

# MA Psychology and Education

Bringing together applied research and practice to explore what is important for improving children's outcomes

**Centre for Education Studies**

## You'll explore:

- ▶ Policy and practice of early intervention
- ▶ Special education needs
- ▶ Evidence-based practice at school, home and the community
- ▶ The way our unique individual characteristics (e.g. personality and emotions) interact with the learning environment

## This programme is for you if you are interested in:

- ▶ Applied psychological research
- ▶ Real-world applications of evidence-based practice
- ▶ The science, policy and practice of early intervention

---

“Psychology is a science and teaching is an art: and sciences never generate arts directly out of themselves”

---

(James, 1899).
