START

You can check your existing confirmed ratifications on the DfE TTP (<https://services.signin.education.gov.uk/>)

Are you requesting additional places for a subject/route or do you want to request an entirely new subject/route?

UCAS set up for new subjects/routes (please note you do not have to do this for additional places):

Once you have agreement to recruit, you need to open the course on UCAS weblink.
 If the subject and route are the same as a course you have run previously, please make sure you use this **same** code by setting the course to 'running'
 If you have never run the course before, please set up a new course and inform Warwick of the new course.
