

Athena SWAN headlines

Application data for the Athena SWAN Award – supporting gender equality in Higher Education and research.

Student data

Completion rates by gender

For the last 5 years, over Primary and Secondary courses on all UK routes, female completion rates have been higher than males.

In the international PGCE, male completion rates have been equal to or higher than females (18/19 and 19/20).

Over 50s on the UK courses have seen a slight improvement in the last year.

| Age on entry | >=50 | >=50 |
|--------------|-------|-------|
| Status | 18/19 | 19/20 |
| Complete | 62% | 88% |
| PWD | 38% | 13% |

MA upgrade figures

Males are underrepresented on the MA. And so are over 25s.

71% of MA upgraders are under 25.

81% are female.

5 year Action Plan

AP monitor and evaluate applications, offers, completion and upgrade rates on all courses and investigate what additional support is needed.
