### **A G E N D A**

1. **Library**  
there is a new course available to the students. Link:

2. **Follow-up previous meeting**
  - i. **2<sup>nd</sup> year courses:**  
**Empirical Political and Theory:**  
Manuel said that the total number of courses will not change and explain that the idea of uniting Empirical and Theory Political Economy is to try to have a more coherent course. Anwesh pointed out that the department should be careful when designing new courses to avoid repetitive content. Manuel said that they are closely following the advice from students.
  - ii. **Equality-diversity-inclusion AMP**  
Next meeting for admissions
  - iii. **New building**  
Everything is proceeding smoothly.
3. **EC9A1 reading time.**  
Reading time for Micro was denied. Apparently is due to not having a lot of pages that are necessary to read (as opposed to Econometrics). No criteria have been found to justify the reading time.
4. **Marking preferences (Paper/Online)**

**Claudia said that some exams of the undergraduate will be online and some will be in person and therefore the marking preferences depend on that. There will be few changes at most, the allocation is not definitive.**

**5. Matters Arising**

**Moderation for Econometrics: Manuel said it was a professor/moderation decision and that he will try to be more persuasive in designing a better exam for the students (to avoid this kind of moderation trouble)**

**6. Any other business**
