

SSLC Meeting Minutes 30/1/2026

Venue: Online meeting via Teams

Participants:

Staff:

1. Bozena Beauclair
2. Andrea Wyld
3. Alexander Karalis-Isaac
4. Stephanie Redding
5. Shubham Kailthya
6. Claudia Rei
7. Farzad Javidanrad
8. Jackie Hanes
9. Stefania Toscano

PGT Students:

1. Samantha Eves (Chair)
2. Aathira Pillai (Co-Chair)
3. Madhuvanathi Sounderrajan
4. Moksha Bhangria
5. Riya Rajvanshi
6. Shiva Chelluri

(Transcribed by Moksha Bhangria)

Topics Covered: The following are the topics discussed in the meeting. The detailed problems are mentioned in the Meeting Agenda, which is available to everyone. Therefore, to keep the Minutes of the Meeting succinct, we primarily record the discussion and problem-solving, and we align with the Meeting Agenda.

Introductory Discussion

Stefania

1. ~~Andrea~~ gave an update on whiteboards in the study room. 1 whiteboard has been ordered, regarding the other 3 whiteboards they would be arranged similarly by finding any available whiteboards from other departments.
2. Well-being brunches have been discussed.
3. Samantha mentioned that the Monetary Economics module lecture room is too small to accommodate 27 enrolled. On average 5-6 students need to stand. Also these are 3 hr lecture+seminar, thus needs to be dealt with accordingly.

Andrea and Alex had a discussion and came up with the following remarks.

- Class room FAB 3.30 has been allocated in accordance to previous year student enrolment.

- Solution: Book a different room every week or room in Westwood campus available but it will become difficult for students part of the Development Economics module to transit.
4. Aathira mentioned Econ and Data Science students are in consensus for a mix of Microeconomics and Macroeconomics modules to be offered. But there was a disagreement between the faculty and students.
 5. Heavy weightage on Final Assessments as mentioned by Aathira and this weightage seemed unfair since Data Science should be tested by assignments and a more practical medium of assessment should be looked at. Alex mentioned cannot test coding if we can use AI.
 6. Bozena mentioned about "Warwick Behavioural Science Professional Network" LinkedIn handover to current BES students for networking and other opportunities. Moksha has agreed and will send an email regarding it.
 7. Stefania mentioned about Warwick Alumni Mentor Event taking place on 24th February,
 8. Bozena mentioned about Teaching Strategy Renewal(Employability)
10-11am Thursday, 5th February
 9. Bozena mentioned about Warwick Postgraduate Insights Day: WBS, WMG and Economics – 25 February 2026:
 10. Bozena mentioned about the MSc Summer Social happening on 27th May. Formal Email has been sent out and registrations are open.
 11. Dissertation Workshop: Subham and Claudia both mentioned to be there and nothing in advance is required. List of dissertation supervisors to be released very soon.
 12. Bozena mentioned in the meeting regarding short videos of MSc students for Marketing purposes. Monetary incentive was provided. The interested students will be contacted via an email and a professional videographer will capture the videos.
