University Life

University is different from school/college

- Each of you was probably towards the top of your class!
- You now need to become independent learners
- It is your responsibility to attend lectures/classes and complete the work set
- If you don't understand something, YOU need to take action
- The ongoing assessments/feedback at school/college is not feasible at University
- You will receive different feedback here and must make the most of it

Teaching and Learning

- Most of your teaching in your first year will be from in-person lectures/classes
- Some modules will have pre-recorded material to complement the lectures
- The format varies in your second/final year depending on module content
 - **Pre-recorded Material:**
 - Will be uploaded onto the module Moodle page
 - Follow lecturer's guidance about when to watch them
 - **In-person Lectures:**
 - These are timetabled (see Tabula) and are attended by students taking the module
 - They may be recorded, so you can rewatch them on Moodle at a later date.
 - They may only be available for a short time, particularly if lecture attendance is adversely affected

Teaching and Learning

- **Support and Feedback classes/seminars/tutorials**
 - Classes will only be available in-person.
 - Classes meet weekly or fortnightly **usually from Week 3** (scheduled on Tabula week 2).
 - For some modules, you will be allocated to classes; in others you will choose your class on Tabula (The UG office will email you about this).
 - Some modules do not have classes/seminars.
 - Classes discuss the work set by your lecturer - prior to attending you should be up to date with appropriate lectures and have tried pre-class questions.
 - If you need to move your class time, please contact the UG office
 - Classes are compulsory and attendance is monitored. If you are unwell, submit a [form](#) to obtain an authorized absence: 2 permitted per year.

Monitoring Points

- ▶ The Department follows University guidelines and monitors student engagement.
- ▶ The Department has a series of monitoring points during the year. Check them on **Tabula**.
- ▶ The monitoring points include:
 - support and feedback class attendance
 - submission of module evaluations
 - exam attendance
- Further details on the exact nature of these monitoring points for your Degree and the number of points of engagement can be seen in the Undergraduate Handbook

Assessments

- ▶ **Submission** is via Tabula. Economics deadlines are 14:00
 - External modules: check other Departments' submission times/methods
- ▶ Submit well before the deadline to avoid **late submission penalties (5 marks per day)**, and **back up** your work
 - See the Handbook for regularly refused reasons for late submissions
- ▶ Check the rules on **plagiarism** – you will be completing a plagiarism module for PDM, but for a recap see the Handbook and Library resources
 - We take plagiarism very seriously. Last year, cases were pursued through the University, and a penalty of a 0% grade was imposed for that piece of work including exams.
 - Students have had job offers removed due to being found guilty of plagiarism
- ▶ **Extension** and **exemption** requests should be made on Tabula via '**Mitigating Circumstances**'.
 - Evidence is required and should be submitted within 1 week of the assessment date.

Degree Regulations – see Handbook

Welcome to the Department of Economics from the Director of Undergraduate Studies

Welcome to Economics at Warwick. I very much hope that you find your degree course interesting, challenging and rewarding. Our aim is to ensure that you will graduate with a degree from one of the best Economics departments in the UK, and that you will reach your full potential during your time here. As Director of Undergraduate Studies in Economics, my aim is to ensure that our courses are designed and delivered to the very highest standards in all dimensions of teaching, learning, development, assessment and feedback. This year is going to be very different with all of us developing new skills as we embark on online teaching and learning, but that won't change the quality, diversity or enthusiasm within our teaching and whatever the circumstances, you will continue to experience a first class education.

In less than 50 years, we have established ourselves at the forefront of both economic research and education in the UK and beyond and we attract students from all around the world due to our reputation for offering rigorous and exciting training, and the fact that so many employers are keen to work with our graduates. As a member of the academic staff, I feel very fortunate to be teaching at Warwick – in large part because of the calibre of our undergraduate students, whose energy, brightness and creativity continue to inspire (and challenge!) us as lecturers and supervisors.

I believe that Warwick provides an excellent environment for learning and for personal, professional and intellectual development. Teaching is informed by the very latest developments in research, and optional modules provide a great
