

Approved Optional Modules – Final Year – 2022/23

The following are approved optional modules for L100, L101, L116, L117, LM1D, LM1H, GL11 and GL12 Final Year Students. Please check specific notes next to some modules.

Approved modules do not require you to complete an unusual option request form, but it is still your responsibility to ensure that you have met **all relevant pre-requisites** and have obtained permission from the department offering the module. You must also ensure that the modules you choose meet your degree course regulations.

If the module you are interested in is not listed here, please submit an [Unusual Options Form](#) (opening shortly).
