Join our community

As a student of economics at Warwick you will be joining a community of talented, hard-working and ambitious staff, students and alumni, in one of the most successful economics faculties internationally.

Our innovative curriculum across our programmes provides rigorous training in the tools and techniques of the discipline, and offers opportunities for you to develop and grow, to ensure that not only will you graduate from one of the best economics departments in the UK, but that you reach your full potential during your time here and make a flying start to your career.

We hope this brochure gives you a detailed overview of what we can offer but if you have any questions, we'd love to hear from you at economics.admissions@warwick.ac.uk.

[Read more about diversity and our values](#)

"My interest in economics comes from a curious mindset, and a mathematical aptitude. I find economics to be the most integral part of understanding modern society, as economic transactions, on both a microeconomic and macroeconomic level, shape our entire world today. Being able to quantify, and approach these interactions offers an understanding lens on the world, no other field of study does."

Why Warwick Economics?

An outstanding student experience

We offer a wide range of extra-curricular activities to enrich your student experience, including a guest lecture series, student conferences and social events.

A supportive learning environment

Throughout the year we provide academic and pastoral support to any student who needs it.

A global outlook

From your first year, you will receive lectures from world-leading researchers. During your studies, you will also have the option to study a language and even study abroad for one year.

Research opportunities

One of the biggest attractions to studying economics at Warwick is our third-year dissertation project - Research in Applied Economics (RAE) which gives you the opportunity to conduct your own original research.

International and interdisciplinary modules

Our flexible course structure means you can study optional modules such as Business, Computer Science, Education, Languages, Law, Mathematics, Philosophy, Politics, Psychology, Statistics and more, giving you a truly cross-disciplinary experience. Throughout the course, you'll have many opportunities to apply the principles of economics to practical study and real-world issues.

Dedicated career support

We provide you with valuable opportunities to enhance your CV and develop key transferable and professional skills, allowing you to make a flying start to your career.

What courses can I study?

BSc Economics

Our BSc Economics is a comprehensive programme that will familiarise you with a range of economic issues and develop your skills in microeconomics, macroeconomics and econometrics. You will learn about recent trends in economic variables, such as unemployment and economic growth, and institutional and policy issues in economics. You will also be taught how to apply economic theory to the solution of economic problems. This programme is our most flexible degree course which allows you to select optional modules from a wide range of subjects, enabling you to engage with other subject areas such as psychology, business, computer science, and modern languages.

BSc/BA Economics, Politics and International Studies

Our Economics, Politics and International Studies programme crosses subject boundaries, combining economics and political analysis. It enables you to contextualise economic theory and practice within national and global political structures and behaviour. It also gives a rounded perspective of how governments, companies and individuals function in the 21st century, with up-to-date analysis and debate of key events.

Other joint degrees

We also offer other joint degrees at Warwick which combine the study of economics with other disciplines. These include:

- Economics, Psychology and Philosophy (EPP)
- Economic Studies and Global Sustainable Development
- Liberal Arts
- Mathematics, Operational Research, Statistics and Economics (MORSE)
- Modern Languages (French, German, Hispanic Studies or Italian) and Economics
- Philosophy, Politics and Economics (PPE)

about these
programmes

Admissions

Our programmes are very competitive, so it is essential that you read the entry criteria to ensure you meet our requirements before applying.

A successful application should be strong in all areas including:

- ☒ Predicted/Current Grades
- ☒ Past Academic Record
- ☒ Personal Statement
- ☒ Reference

A Levels and IB

Course	A Level*	Contextual Offer*	IB
BSc Economics	A*A*A including A* in Maths	A*AB including A* in Maths	39 points to include 6 in three HL subjects including HL Maths
BSc/BA Economics, Politics and International Studies	A*A*A including A* / Grade 8 in GCSE Maths	AAA including A*/8 in GCSE Maths (or B at A Level in Maths)	39 points to include 6 in three HL subjects plus A* at GCSE Maths or 5 in SL Maths

* Offers exclude General Studies and Critical Thinking. The typical offers listed are indicative. Specific offer levels are not set until just before the application cycle. Those applying for 2024 or 2025 entry should go to warwick.ac.uk/ugoffers to check the latest offer levels.

Find out more about our entry requirements and the qualifications we accept

GCSEs

A strong set of GCSE grades including the majority at A (or 7) and A* (or 8-9). Your GCSE (or equivalent) English Language and Mathematics grades should be no lower than B (or 6). We also consider your overall GCSE subject profile.

Personal Statement

The personal statement is essential. Most of our applicants are predicted to meet/exceed the offer and therefore great emphasis is placed on the personal statement. View our frequently asked questions on the following page for further advice on what should be included in your personal statement.

Key Dates

View key UCAS deadlines here

Frequently Asked Questions

Which subjects are the best?

We do not specify a subject mix, but we particularly value applicants who can demonstrate a strong breadth of study and academic interest through a combination of GCSEs, A Level subjects, and personal statement.

Are Further Maths or Economics essential subjects?

Further Maths and Economics are not essential, although they are fine subject choices for a student considering Economics at degree level. We treat Further Maths as any other strong A level subject: it has no special status. On average, 30% of students have taken Further Maths at A level (or equivalent) and 80% have taken Economics A level (or equivalent), however, this can vary from year to year.

Do you consider the Extended Project Qualification (EPQ)?

The most important thing is to meet our grade offer and have a strong personal statement. An EPQ would not help to replace either of those, and wouldn't change the level of offer we would ask for. It is fine in terms of overall profile demonstrating interest. Whilst we want well-rounded applicants we realise opportunities offered by schools vary significantly and we would not want to disadvantage applicants whose schools did not offer this.

What should go in the Personal Statement?

In your personal statement, you should demonstrate enthusiasm for the subject, wide reading and motivation. We recommend that you focus on the subject rather than extra-curricular activities, but non-academic information can be useful if it supports your academic achievements. You will need to evidence your ability to apply academic theories and ideas to what is happening in the news, work experience, part time work, etc.

[Get guidance on writing your personal statement](#)

Will I get an offer if I am predicted to make the grades?

Due to the competitive nature of our courses, each year applicants are turned down who are predicted (or even exceed) the offer due to the high volume of applications we receive. A successful application should be strong in all areas including: predicted/current grades, past academic record, personal statement and academic reference.

Do you offer places via clearing?

We rarely use Clearing and typically we are full long before the Adjustment process begins so if you want to come to Warwick, please apply through UCAS by the 25 January deadline.

Will a fourth A Level advantage me?

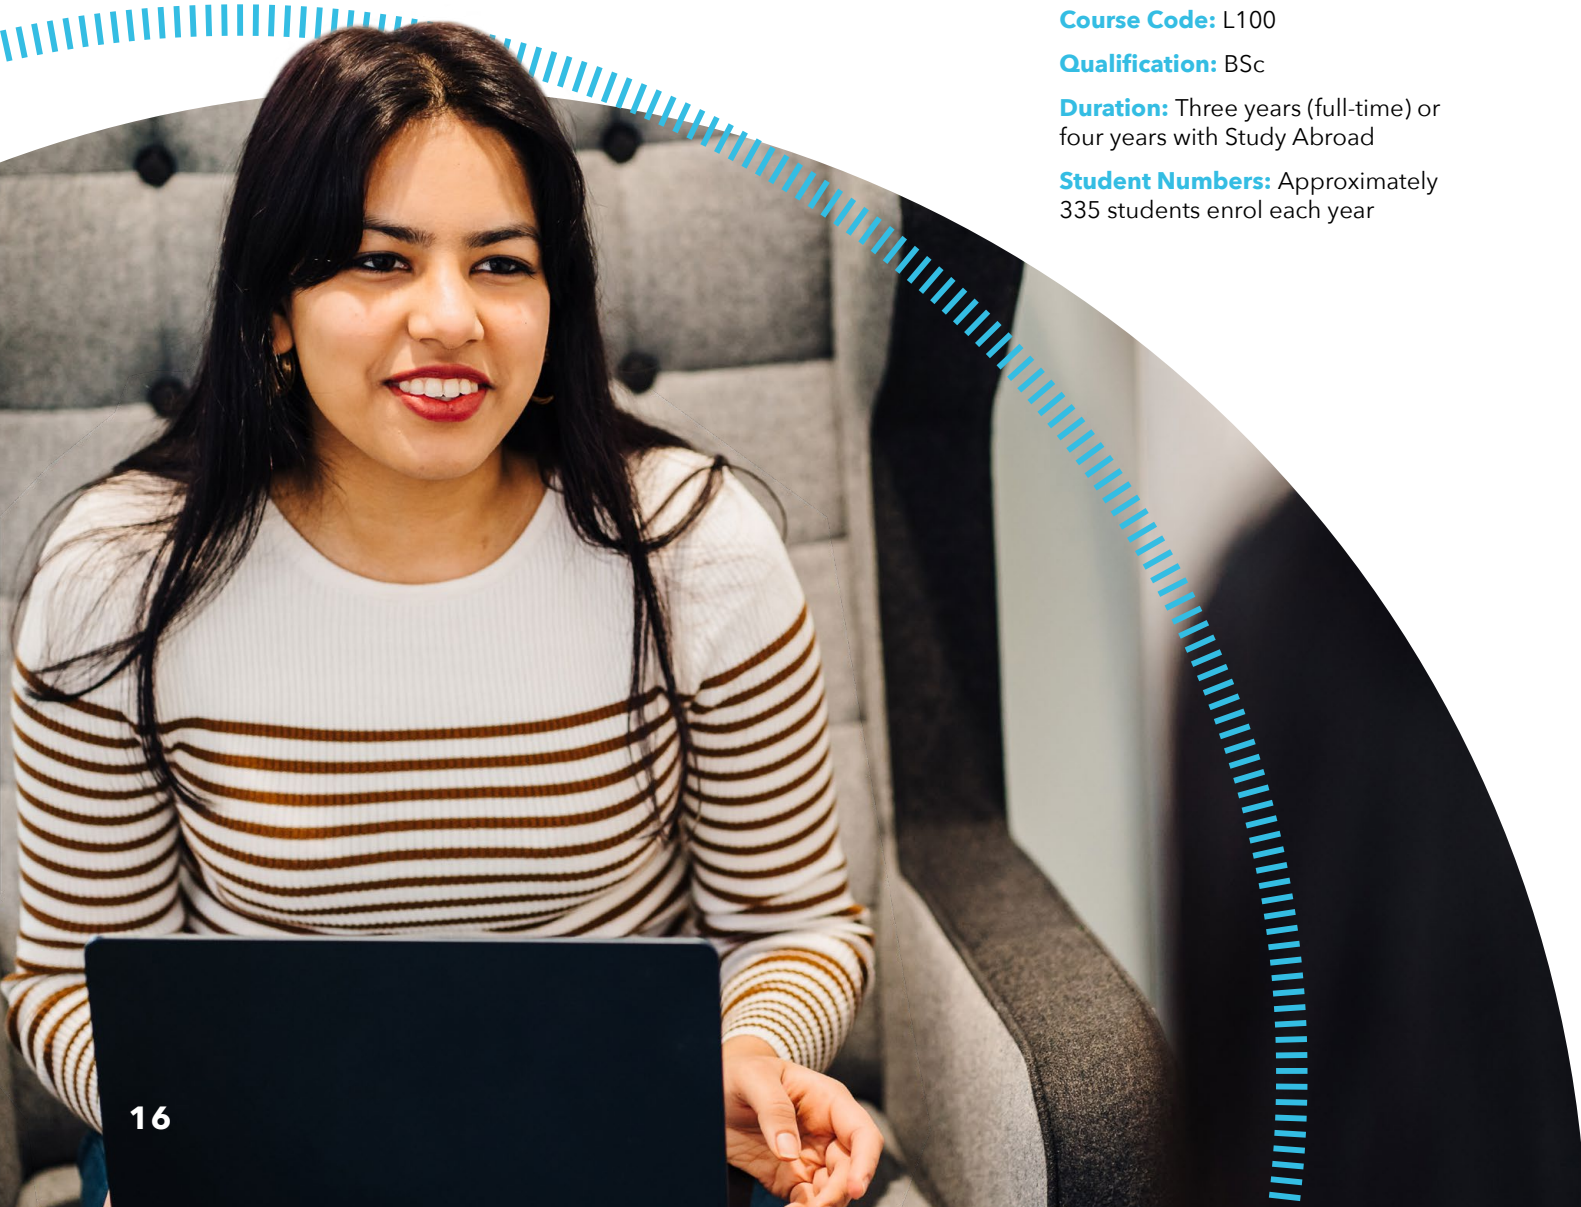

We will only consider your best three A Levels (including essential subject requirements). If you wish to drop an A level after applying, you will need to let the Undergraduate Admissions Team know by contacting them at ugadmissions@warwick.ac.uk.

[View a full list of frequently asked questions](#)

BSc Economics

Course Code: L100

Qualification: BSc

Duration: Three years (full-time) or four years with Study Abroad

Student Numbers: Approximately 335 students enrol each year

Year 1

- Macroeconomics 1
- Microeconomics 1
- Quantitative Techniques
- The World Economy History and Theory
- **Plus up to two optional modules**

Year 2

- Macroeconomics 2
- Microeconomics 2
- Econometrics 1
- **Plus up to two optional modules**

Year 3

- Research in Applied Economics
- **Plus up to six optional modules**

Optional Modules

Optional modules can vary from year to year. Example optional modules offered in the Department may include:

- Behavioural Economics
- Development Economics
- Econometrics
- Economic History
- Environmental Economics
- Experimental Economics
- Financial Economics
- Game Theory
- Industrial Economics
- International Economics
- International Trade
- Money and Banking

We are planning to make some exciting changes to our Economics (BSc) degree for 2024 entry. Changes to core modules go through the University's rigorous academic processes. As module changes are confirmed, we will update the course information on this webpage. It is therefore very important that you check this webpage for the latest information before you apply and prior to accepting an offer.

[View modules currently available to students](#)

BSc/BA Economics, Politics and International Studies

Course Code: LLD2

Qualification: BSc/BA

Duration: Three years (full-time) or four years with Study Abroad

Student Numbers: Approximately 50 students enrol each year

Year 1

- Economics 1
- Quantitative Techniques
- Introduction to Politics
- World Politics
- Plus up to two optional modules

Year 2

BSc Economics Pathway

- Economics 2
- Applied Econometrics or Econometrics 1
- A politics module from:
 - Foundations in Political Theory and Political Theory: Contemporary Topics
 - or
 - Politics of International Development
- Plus up to two optional modules

BA Politics Pathway

- Economics 2
- Foundations of Political Theory
- Political Theory: Contemporary Topics
- Politics of International Development
- Plus up to two optional modules

Year 3

BSc Economics Pathway

- Making of Economic Policy
- Plus up to six optional modules including a required number from Economics

BA Politics Pathway

- Making of Economic Policy
- Plus up to six optional modules including a required number from PAIS

BA Bipartite

- Making of Economic Policy
- Plus up to six optional modules including a required number from Economics and PAIS

Optional Modules

Optional modules can vary from year to year. Example optional modules offered in the Department may include:

- Political Economy
- Politics of International Development
- International Security
- International Relations
- Behavioural Economics
- Industrial Economics
- Environmental Economics
- Topics in Applied Economics
- Languages

We are planning to make some exciting changes to our Economics, Politics and International Studies (BSc/BA) degree for 2024 entry. We continually review our curricula to reflect developments in the relevant disciplines to deliver the best educational experience. The core and optional modules will undergo approval through the University's rigorous academic processes. As modules are approved, we will update the course information on this webpage. It is therefore very important that you check this webpage for the latest information before you apply and prior to accepting an offer.

View modules currently available to students

Study Abroad

Studying abroad offers you the opportunity to experience an alternative university system, improve your language skills and gain an understanding of another country that can only be obtained by living and working in it.

How to apply

In the first term of your second year you will be invited to an information session that will outline details of the application process. This is usually split into two stages:

STAGE 1

Submit an application to the Department of Economics

STAGE 2

Once approved, **apply directly to the institution** that you hope to study with, with support from the Department and the Student Mobility Office.

Eligibility

To be considered for a placement through the Department of Economics, you should*

- Achieve 68% or above across your first and second years of study.
- Complete a short personal statement of why you want the opportunity to study abroad.
- Hold a level 5 in the language which is taught in the institution to which you are applying to.

Please note: It is not possible to apply for the Study Abroad Year via UCAS.

*Each application is judged on an individual basis. We will also take into account the view of your Personal Tutor in terms of your suitability to undertake a year abroad; your general attendance and your performance in your first year. Thus, you are advised to discuss your desire to study abroad with your Personal Tutor as soon as possible. Eligibility requirements may change by year of application. Study abroad opportunities are often over-subscribed and therefore cannot be guaranteed.

Worldwide Partnerships

There are also University-wide partnerships with institutions in Australia and Hong Kong that are offered. This information will be given to you at the stage of application however we cannot promise what the allocation will be in advance.

Hear from Keshav who studied for a year at the University of Waterloo

Our Partner Universities

The Department of Economics partners with the following European institutions:

*There are also University-wide partnerships with global institutions that are offered. This information will be given to you at the stage of application however we cannot promise what the allocation will be in advance.

"Adding the study abroad year to my course has been one of my highlights. I was able to broaden my economics knowledge from Warwick in different contexts as well as develop personally."

Farina BSc Economics with Study Abroad

The Student Perspective

"One of the best aspects of studying economics at Warwick is the high-quality education and rigorous academic environment. The economics programme at Warwick is renowned for its emphasis on analytical thinking, quantitative methods, and real-world applications."

Alia BSc Economics

"The best aspect of studying economics at Warwick is the quality of its faculty. The Department is home to genuine expertise and world-leading academic excellence. There is a passion and pride among teaching staff that really motivates you to get the best out of your time at Warwick."

Matthew BSc Economics

"The academic and pastoral support that Warwick offers are useful and helpful. It is easy to find someone that I can talk to when I meet problems from both study and personal aspects. Staff are so nice and always give their best suggestions."

Yijia BSc Economics, Politics and International Studies

"The Department is consistently rated as one of the best economics departments in the world for its top-notch research and instruction. Employers place a high value on the Department's graduates, who have a proven track record of building successful careers in academia, government, and business."

Transformative Learning

We offer an advanced, internationally focused education in economics that is intellectually demanding and professionally relevant, applying economic modelling to both traditional and atypical spheres of analysis, including voting theory, the economics of strategy, environmental economics and health economics.

Our teaching is research-led which means you'll be learning from some of the most prominent academic economists in the UK. Throughout the degree, you will have many opportunities to apply the principles of economics to practical study, making your learning highly relevant to real-world issues.

Get a glimpse of a typical day in the life of an economics student by watching our series of videos

Class Size

Some of the core modules may have 200-500 students in them, whereas your weekly or fortnightly support and feedback classes will have around 15-20 students.

Contact Hours

In your first year, you will receive approximately three hours of contact time per day, so making it, on average, 15 hours per week. This reduces to 12 hours per week in your second year and 10 hours per week in your final year.

Independent Learning

You will also be expected to undertake independent study, to help you develop your own research and learning and become an independent, active learner.

Assessments

You will usually have more formative assessments in first year than in your second and final year. The typical module in your first and second year are based 20-30% on coursework and 70-80% on the final examination, but assessment weights and methods do still vary, particularly for final year modules.

"Being amongst the brightest undergraduate economists in the world means you always get inspired by the people around you. It is also reassuring to know that despite the challenging nature of the course, the staff here are always more than happy to support you."

Jun Xian BSc Economics

Read our student blogs to get the student perspective

Optional Modules

A high degree of flexibility in the choice of optional modules enables you to specialise or diversify your studies. Choose to study a language, or one of a wide range of modules from other departments, including Philosophy, Sociology, Politics, History, Mathematics, Statistics and Warwick Business School.

View modules currently available to students

Research Opportunities

We aim to engage in innovative research which extends the frontiers of the discipline, contributing to a deeper understanding of how modern economies function and how they can adapt to future challenges.

No matter which programme you choose, you'll design and conduct your own research projects during your course, and you'll get to tailor projects to your developing interests.

Cross Faculty Research Scheme

The Cross Faculty Research Scheme offers students the opportunity to take part in an interdisciplinary group research project with students from across different subjects from the Social Science faculty.

Undergraduate Research Support Scheme (URSS)

URSS gives you the chance to apply to carry out a summer research project whilst being supervised by an academic member of staff. URSS gives you the chance to apply to carry out a summer research project whilst being supervised by an academic member of staff. The scheme provides living expenses (up to £1,000) and skills development training.

Warwick Internship Scheme for Economists (WISE)

Students can apply to work as a paid intern for the Department supporting the latest academic research. Find out more about this scheme on page 37.

Research in Applied Economics

Our distinctive final-year undergraduate research project, your dissertation, is your chance to study a topic that interests you. By the end of the project, you'll understand how economists approach questions, in particular, how to construct hypotheses and use data to discriminate between alternate explanations for events or patterns. You will also have gained experience in using statistical and/or mathematical modelling software, conducting individual research and presenting your findings in a range of different formats.

IAES & BUPA

In the last 8 years, 7 students from Warwick Economics reached the finals of the International Atlantic Economic Society's (IEAS) conference for the Best Undergraduate Paper Award (BUPA) in North America.

ICUR

21 students from the Department presented papers at the International Conference for Undergraduate Research (ICUR) in 2022.

36

of our students have presented their research at the international competition the Carroll Round since 2007.

18

A record number of 18 students were accepted at the British Conference of Undergraduate Research (BCUR) in 2020.

2

of our finalists became Global Winner and Regional Winner of the Global Undergraduate Awards 2022.

56

The Warwick Monash Economics Student Papers (WMESP) gather the best dissertations by Economics students from the University of Warwick and Monash University on a wide range of topics. To date, 56 student papers have been published on the WMESP portal.

Read the latest top student papers

Our Research

The Department of Economics is one of the leading centres for economics research internationally.

No matter which programme you choose, you'll design and conduct your own research projects during your course, and you'll get to tailor projects to your developing interests.

Research Groups

Research in the Department is structured across six research groups

- Development and History
- Econometrics and Labour
- Experimental and Behavioural Economics
- Macroeconomics and International Economics
- Microeconomic Theory
- Political Economy & Public Economics

Research Centres

There are three research centres within the Department:

- The Centre for Competitive Advantage in the Global Economy (CAGE)
- The Centre for Research in Economic Theory and its Applications (CRETA)
- Quantitative and Analytical Political Economy Research Centre (QAPEC)

Beyond Study

We believe it's important to invest in the whole student experience and welcome you into our community.

Welcome Week

We offer all new students a bespoke academic induction programme so you can get to know your course, your new course mates and the Department. We also offer re-induction, welcome back and exams meetings to guide you throughout your time here.

Warwick Economics Lectures

For our guest lecture series we invite prominent speakers to discuss topical issues from a range of themes suggested by students themselves, including: sustainability and climate emergency, artificial intelligence, innovation and the economics of war.

Social Events

We think it's important to provide you with opportunities to relax and get to know both your peers and tutors outside of the classroom. Recent socials have included a quiz night, bowling trip, Undergraduate Mentor social, a welcome reception for new students and an afternoon tea and ball for our finalists.

Top Student Societies

The Department of Economics works closely with various societies listed below. As well as becoming a member you can also apply to join their executive committees in roles such as President, Fresher Rep, Treasurer, Talks Coordinator or Social Secretary, giving you something extra to put on your CV.

"Warwick has a lot of clubs and societies activities every term. I am one of the members of Climbing Club and Hong Kong Society. I enjoy having time there because I am able to meet new friends and share things with them."

Scarlette BSc Economics

Warwick Women in Economics

Warwick Women in Economics is a student society that strives to promote inclusivity and diversity within the economics discipline, and simultaneously showing that economics is and should be for everyone. Visit their page to keep up-to-date with their latest events and news and find out how you can get involved.

Warwick Economics Summit

One of the largest student-run academic conferences in Europe, with world-renowned figures, engaging debates and educational workshops. The Warwick Economics Summit touches on a range of global issues including politics, development and finance.

Warwick Economics Society

The Warwick Economics Society is the largest academic society on campus, bringing opportunities to broaden your network through a range of career, academic and social events. Their key goal is to create a diverse and inclusive society, tailored to all backgrounds, degrees and cultures.

Rethink Economics

Rethink Economics Warwick is a society run by an enthusiastic group of students dedicated to thinking outside of the box and discussing socio-economic issues in a more open and pluralistic way.

Supporting you

We have put in place a dedicated support network to help you with any concerns – academic or pastoral.

This support comes in a variety of ways, aimed at strengthening different aspects of your academic studies, including support with module content and preparation for assessments.

Undergraduate Office

The Undergraduate Office team within the Department of Economics will be your first port of call for any enquiries.

Personal and Year Tutors

You will be assigned a Personal Tutor to whom you can talk about any matter, academic or pastoral. Your Year Tutor oversees the personal tutoring system for a specific year group.

Senior Tutor

The Senior Tutor has responsibility for the operation and design of the economics academic and pastoral care system.

Advice and Feedback Hours

Faculty members hold Advice and Feedback hours every week during term time. This is a chance to have a one-to-one conversation about any academic queries you have.

Wellbeing and Progression Officers

Our Student Wellbeing and Progression Officers hold regular drop-in sessions where you can talk about anything that is troubling you.

Director of Student Engagement and Progression

The Director of Student Engagement and Progression has responsibility for the operation and design of student engagement such as the student event programme, as well as analysing student progression data.

Advisor to Overseas Students

The Advisor to Overseas Students provides additional support to overseas students to help them adjust to studying in the UK.

Advisor to Female Students

Our Advisor to Female Students provides a source of additional support to ensure that our female students receive appropriate support to achieve their potential.

Student-Staff Liaison Committee (SSLC)

The SSLC offers students the opportunity to engage with staff, and to have real influence on major Department initiatives in teaching, learning and the wider student experience.

Undergraduate Mentoring Scheme

When you arrive at Warwick you will be allocated a second and/or third-year mentor who will help you settle into life at Warwick by providing advice, guidance and friendship.

Maths and Stats Drop-ins

We run weekly sessions during term time if you need to ask questions or get help on any aspect of Maths/Stats within your economics modules.

Revision Sessions

In advance of the tests on core modules, we will provide students with approximately an hour of revision sessions.

RAE Helpdesk

For students taking EC331, Research in Applied Economics, there is a Helpdesk where you can speak to a member of staff and gain support and advice about technical and software aspects of your research.

Transition Resources

Prior to arrival and during the start of first year, we provide a wide range of helpful resources to students to ensure a smooth transition to university. This includes recommended reading, mathematics and economics resources and academic writing classes. We also run a transition event specifically designed for students from Widening Participation backgrounds.

Library Support

Bespoke Library Support is on offer to all students studying economics at Warwick.

Wellbeing Support Services

As well as our departmental support you'll also have access to everything the University's Wellbeing Support Services has to offer.

Find out more about support provided

Diversity in Economics

We actively promote a greater gender balance and diversity within the field of economics, to better represent the diversity that exists within society and its institutions.

Irrespective of your gender or social background, if you are interested in understanding and solving global issues of our time as well as getting yourself equipped with a flexible set of skills relevant within a wide range of different careers, consider studying economics.

Our aim is to create a more diverse and gender balanced economics graduate workforce who take on key roles and responsibilities within our society. To achieve our objective, we have introduced a number of initiatives aiming to make our community more inclusive:

Our community values: respect, integrity and accountability

We aim to foster an environment of respect and inclusion for our staff and students where differences in culture and identity are celebrated, the difference of opinion is welcomed and respected and where prejudices and socially unacceptable behaviours of any kind are never tolerated.

Wellbeing, Equality, Diversity & Gender Group

The Wellbeing, Equality, Diversity & Gender group (WEDGG) has been set up to drive progress in the area of equality, inclusivity and diversity within the Department.

Athena Swan

The Athena SWAN Charter is a framework that is used across the globe to support and transform gender equality within higher education and research. In December 2021, the Department was awarded a Bronze Athena Swan Award and we are now engaging in implementing our five-year action plan.

We have introduced a number of key roles within the Department to provide specialist support to students:

Wellbeing and Progression Officers

These officers work closely with the Senior Tutor and Academic and Pastoral Support team to provide support to students throughout their degree, including help with personal issues related to adjusting to studying at university and addressing any specific challenges students face.

Advisor to Overseas Students

This role provides specific support to those students who need help with various issues associated with adjusting to studying in the UK.

Advisor to Female Students

The role provides a source of additional support to any female studying in the Department, as part of our aim to ensure that our female students receive appropriate support to achieve their full potential.

From Warwick, Anywhere.

Studying economics with us will enable you to develop transferable skills in analysis, problem-solving, computing and handling statistics, and will provide the springboard you need to hit your career targets.

Throughout your student experience both in and out of the lecture hall, you'll find yourself learning skills that will help strengthen your employability profile and you'll be supported in reflecting on those experiences and articulating them to employers.

92%

of Economics Undergraduate students were in graduate level work, graduate level study or both within 15 months of successful completion from Warwick in 2019/20.*

£35K

was the median salary of Economics Undergraduate students whose main employment was full-time in the UK within 15 months of successful completion from Warwick in 2019/20.

^Data obtained from Warwick Economics Undergraduates 3 months after successful completion of their course by the Department of Economics, University of Warwick.

Dedicated Support

Our Student Opportunity careers team can assist you to devise and implement your long-term career plans. They run a packed programme of employer-led skills sessions and presentations and host careers fairs and events attended by a wide range of employers. The Department also organises in-person and online careers seminars with alumni and external speakers from a range of careers after completing a degree in Economics. You can book career guidance appointments with our Senior Careers Consultant all year round and get support with making applications and completing video interviews.

Find out more about
Student Opportunity

E-Mentoring Programme

Our E-mentoring scheme allows you to connect with our alumni to gain insights and connections that can help make your career dreams a reality. Your mentor will share advice and personal experiences, and you'll gain a new perspective on the possibilities open to you after graduation.

Personal Development Module (PDM)

Our compulsory first-year module will help you address areas for development identified by employers and our students. There's a focus on developing both academic and employability skills and on broadening your education in Economics. With compulsory elements such as the Economic Briefings Project and optional elements such as IT training courses and careers events, you can develop the skills relevant to you. At the end of the module, you are required to undertake a self-reflection activity to support you to reflect on your experience and promote your abilities to potential employers.

Warwick Internship Scheme For Economists (WISE)

Our Warwick Internship Scheme for Economics will allow you to add to your CV and gain an insight into how an academic department operates. You will have the opportunity to apply to work as a paid intern for the Department and gain valuable skills for employment such as research skills, communications skills, report writing, event organisation and project management. You will work with colleagues to support research, teaching and broader departmental activities.

Last year, 31 students completed a total of 2340 hours as part of WISE and working in a variety of roles supporting academic research, teaching and administration.

Economics Student Ambassador Scheme

During your time at Warwick, you can become an Economics Student Ambassador; an opportunity with numerous benefits that allows you to share your passion for economics and Warwick. As an ambassador, you will meet and help other students and be given further opportunities to engage with staff in the Department.

The Warwick Award

The Warwick Award recognises and showcases the employability skills you're building throughout your degree.

Are we right for you?

It's important that you have all of the information you need to decide if Warwick Economics is right for you.
