

Correction to Footnote 9/10

Please note that the quote in footnote 9 of the working paper version and footnote 10 of the final published version “The false consensus hypothesis has no direct bearing on whether subjects will overestimate, underestimate, or accurately estimate the actual consensus for their own behavior” actually belongs to [Mullen et al. \(1985\)](#) and not Marks and Miller (1987).

We are grateful to Zeeshan Samad for spotting this error.
