**Choosing your Optional Modules  
2020/21**

# Lecture Delivery in Economics

- ▶ **Synchronous & asynchronous** lectures

Synchronous - only available to registered students. Other will have access to the recording afterwards.

Asynchronous - pre-recorded – should be able to view.

- ▶ Classes/seminars/tutorials - Synchronous

- ▶ All material accessed via the **Moodle** pages – from next week.

- ▶ Make sure you sign up for **notification**.

# Your Core Modules

- ▶ **EC201** (30 CATS) Macroeconomics 2  
3 hour exam (80%) + 2 tests (20% total)
- ▶ **EC202** (30 CATS) Microeconomics 2  
3 hour exam (80%) + 2 tests (20% total)
- ▶ **EC226** (30 CATS) Econometrics  
3 hour exam (60%) + 2 tests (13.33% total);  
2 assessments (20%); weekly problem sets (6.67%);

# Choosing your Options 1/3

- ▶ Need **120 CATS** of modules this year
- ▶ Core modules total 90 CATS
- ▶ Must choose **30 CATS** of optional modules
- ▶ Can take:
  - One optional module (30 CATS)
  - Two optional modules (15 CATS each)
- ▶ You may **not** take modules at 6, 12 or 24 CATS
  
- ▶ 15 CAT modules are 1 term;  
30 CAT modules are 2 terms

# Choosing your Options 2/3

- ▶ Check the term 1 and 2 timetable for clashes
  - Synchronous delivery of core modules may take place at **different** times in Terms 1 and 2
- ▶ All modules have codes:
  - the letters represent the department; e.g. EC, PH, HI
  - the first number reflects the year e.g. EC1, IB2, PH3

# Choosing your Options 3/3

- ▶ Must choose 2<sup>nd</sup> or 3<sup>rd</sup> year modules (EC2– or EC3–)
- ▶ Can choose an external option (more later)
  - ‘shop around’ during the first two weeks
- ▶ Register your choices on eMR by **23 October 2020.**

# Things to consider 1/3

- ▶ A balanced load across terms 1 and 2
  - If you are taking 2 x 15 CAT modules, we advise you to choose one module in term 1 and the other in term 2.
- ▶ Some modules may have a cap on numbers.
- ▶ Some optional modules will have **seminars/classes**
  - If all of the seminar times clash with a core lecture, you must choose another optional module.

# Things to consider 2/3

- ▶ Look at learning outcomes, aims, assessments, feedback
  - Do you have the background?
  - Do you have the mathematical knowledge to enable you to do well at the module?
- ▶ All assessment marks are important.
  - Need to do well even in the first one which will get used for references – in case you want to apply for another MSc somewhere else.

# Changing your Options (1/2)

- ▶ **Listen** to the first lecture of optional modules that you are interested in (more if in doubt)
  - Find the timetable online
  - Note, last year's notes and lecture capture are **not** available!
- ▶ If you change your mind, you must amend your choices on eMR **and** via the UG office

**Deadline** is end of week 3 for term 1 modules – **23 October 2020**

# Changing your Options (2/2)

- ▶ Term 2: eMR: open till end of 3rd week of term 2.

Can change your term 2 module choices

- Can't drop any module if you have completed 10% of the module's assessment

# Your options...Reminder

## You should:

- Check your lecture **timetable** (available hopefully next week)
- Look at optional modules online: internal and external
- Check with external departments' UG offices.
- Is there a cap/restriction on the numbers?
- Fill in a form for unusual options
- **Register** your module choices on eMR by **23 October 2020**

# After eMR closes (23 October)...

Look at the modules you are registered for, on **Tabula**

- Are they correct?
- If not, you have not registered correctly – you **MUST** get in touch with the UG office to correct errors.
- If you don't, this will have **BIG implications** for exams...

.... It means you are registered to take an exam for a module, which you don't think you are taking... it is your responsibility to check this.

We wish you all the best
