

Welcome to the third Futuretrack 2006 survey, conducted on behalf of the Higher Education Careers Services Unit (HECSU) by a team of researchers from the University of Warwick. In 2007, in the second survey, the questionnaire asked about experiences of being a student (or of having taken an alternative path). In 2009 we invited respondents to fill in the third questionnaire, where students in their final year were asked about their immediate and longer term career plans and others were asked to simply update their details. We would now like this years' 2005/6 applicants who are final year students in 2010 to tell us about their next steps. The answers you give determine the questions you will be asked, and completing the questionnaire will take 5-20 minutes, depending on how many questions apply to you.

All information provided will be treated in confidence and seen only by the members of the research team. It will be reported to the sponsors and more widely but individual respondents, colleges and universities will not be identified.

Please click on the  arrow below to complete the questionnaire. To return to a previous question, you can use the  arrow at the bottom of each page after this one. If you get a message saying the webpage has expired, simply click on the refresh sign at the top of the screen  and your answers will not be lost. If you are interrupted and have to save the survey and return to it later, select  instead of the  arrow, and you will be given options.

If you have any questions for the research team, you can email us at: Futuretrack2006@warwick.ac.uk
