Research Track Record: template for partners

An important part of our Collaborative Research Proposal will be the section on our Research Track Record. This will showcase our unique skills, expertise, approaches, networks and partnerships.

I'd like to start assembling this ASAP and will need the following information from you:

1. A series of paragraphs for the first part of our Case for Support. These should cover:
 - your institution: its unique standing, track record, academic status, national/international reputation, RAE rating etc
 - your collaborators: e.g. industry partners, stakeholder organisations.
 - your research interests: focus of your work, notable outputs (e.g. seminal papers, keynote addresses, innovative methodologies, esteem markers, industry collaborations) – these can duplicate the relevant sections of your CV (see Item 2, below)

2. An up-to-date c.v., no more than 2 pages. We need a consistent house style. Please use the template overleaf. These c.v.s will be uploaded as separate attachments on the Joint Electronic Submission (Je-S) system.

As a consortium operating under the NDA programme, we need to provide evidence of:

1. multi-disciplinarity and successful collaborations
2. established partnerships with industry, policy etc
3. the involvement of end-users
4. ground-breaking methodologies
5. impact on the policy-making process and the quality of working lives
6. systems & processes which will create a new generation of inter-disciplinary researchers
7. Links with researchers in the EU, North America and other countries
8. value for money, exemplary quality thresholds and the highest ethical standards

The deadline for this is: Friday, June 22, 2007

C.V. TEMPLATE

NAME

Position & institution

Address

Contact details (Email, telephone)

Website

Areas of research expertise

1-3 lines

Link to ageing research agenda

Biographical summary

1-3 paragraphs

Projects & grants

Including Research Council grants, Government grants
