

## Study on the wider benefits of completing a degree

### Online focus group and telephone interview participants needed

We are looking for graduates to join an online focus group or take part in a 30-45 minute telephone interview sometime in January 2019. We would like to talk to you if you started a degree in or after 2012 and finished before 2017 and studied any of the following subjects: Agriculture, Biological Sciences, Chemistry, Creative Art and Design, Performing Arts, English, History, Languages, Philosophy, Psychology.

We would like to ask you what you have been doing since graduating and about your higher education choices. The Department for Education is funding this project and believes that there is a need for a better understanding of what people want from a university-level education, whether their experiences meet their expectations and the contribution that study in these subjects makes to the lives of individual graduates (beyond the salaries they go on to earn) as well as to the UK economy, culture and society.

Focus group and interview participants will receive a £15 Amazon voucher.
