

MTR enabled meeting room

If you are in the room and want to share your screen without Teams, connect your laptop using the USB-C or HDMI cable and select Share on the touch-panel.

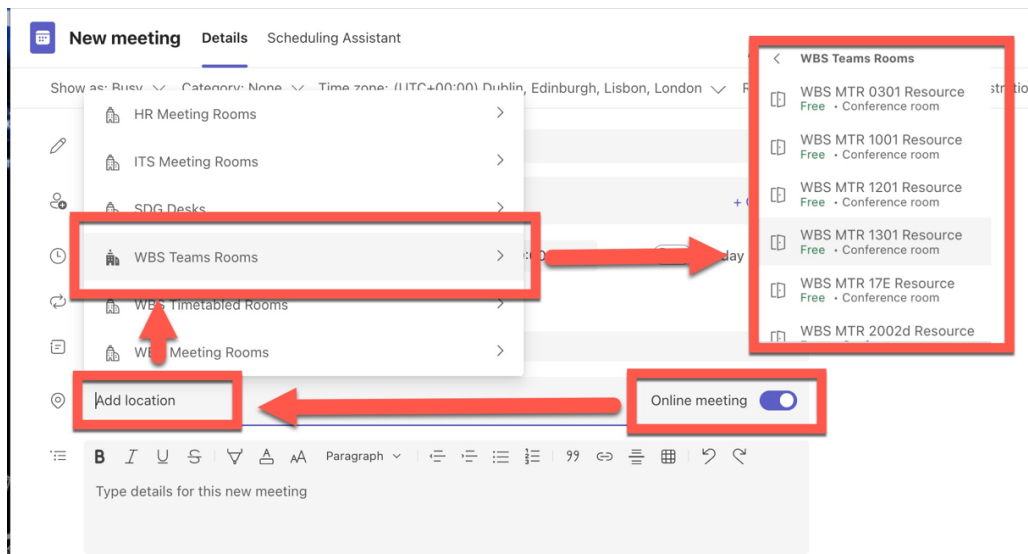

Using Teams

There are two steps to using an MTR enabled meeting room for Teams.

- Invite the room resource account to the meeting
- Join the meeting using the touch panel in the meeting room.

Invite the room resource account to the meeting

Your meeting will appear on the MTR touch panel – select **Join**

Connect your laptop using the USB-C or HDMI cable and select **Share** to share your screen
