

## **Making Internet Explorer your default browser**

### **Symptoms**

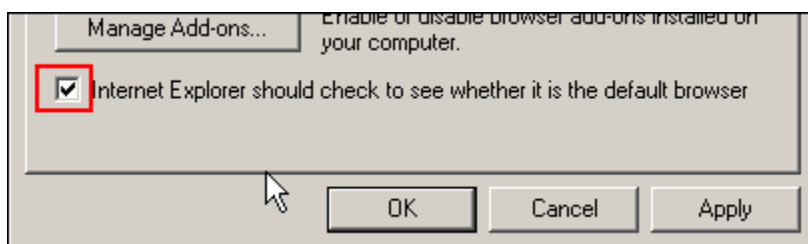

When you click on a web link it no longer opens in Internet Explorer, which you would like it to.

### **Procedure**

- Start up Internet Explorer.
- Click Tools > Internet Options
- Click the Programs Tab

- Tick/check the 'Internet Explorer should check to see whether it is the default browser' checkbox. Click OK

- Close and reopen Internet Explorer. You will be asked whether you wish to make Internet Explorer the default browser. Select Yes.
