Call for Papers
Annals of Operations Research
Special Volume:
APMOD 2014 – Modelling and Decision Making Methods

_____

The *Annals of Operations Research* seeks submissions for a special volume on

APMOD 2014 - Modelling and Decision Making Methods

The deadline for submission is **31 December 2014**.

The main topics of interest are:

• Modeling and decision making approaches including (but not limited to) stochastic programming, robust optimization, discrete optimization, integer programming, nonlinear programming.

• Application areas including (but not limited to) finance, engineering, energy, supply chain management, revenue management, healthcare.

Instructions for authors can be found at:

http://www.springer.com/business/operations+research/journal/10479

Authors should submit a cover letter and a manuscript by 31 December 2014.
via the Journal's online submission site. Manuscripts submitted after the deadline may not be considered for the special volume and may be transferred to a regular volume.

Please see the Author Instructions on the web site if you have not yet submitted a paper through Springer's web-based system, *Editorial Manager*. Be sure to make a note there that your work is intended for the special volume and to select the article type "***APMOD 2014.***"

Papers will be subject to a strict review process managed by the Guest Editors and accepted papers will be published online individually, before print publication.
