

## Call for Papers

### Special Issue of Journal of Combinatorial Optimization on

International Symposium on Combinatorial Optimization 2008 (CO2008)  
(<http://go.warwick.ac.uk/co2008>)

Guest Editors: Bo Chen, Artur Czumaj, Vladimir Deineko, Arie Koster

Authors of all abstracts accepted by CO2008 are cordially invited to submit their full papers for possible publication in this special issue of *Journal of Combinatorial Optimization* (JOCO). The special issue also calls for papers that have not been submitted to CO2008 but are within the scope specified below. All submissions to the special issue shall be subject to the normal review process of JOCO.

#### Scope

Computational complexity	Integer programming
Constraint satisfaction	Location
Crew scheduling	Meta-heuristics
Cutting and packing	Network design
Exact and approximation algorithms	Polyhedral theory
Frequency assignment	Production and logistics scheduling
Graphs	Timetabling
Heuristic methods	Vehicle routing and scheduling

#### Submission

All submissions shall be through Springer's Online Manuscript Submission, Review and Tracking System for JOCO: <<https://www.editorialmanager.com/joco/>>, where you can find detailed information and instructions. However, please pay special attention to the following:

Once entered login to "*Submit a Manuscript*", please select "*CO2008*" from the pull-down list when prompted for "*Choose Article Type*".

#### Deadline for Submission

21 May 2008
