

Industrial Relations Unit (IRRU)

Seminar Series – Autumn Term 2019

Speaker: Professor Pauline Dibben, Sheffield University Management School

Title: Critical perspectives on 'disability management'

Date: Wednesday 13th November 2019

Venue: Meeting Room 2.214

Time: 14:00 – 15:30

Abstract: The term 'Disability management' can incorporate a wide range of dimensions relating to the recruitment and management of workers with disabilities. However, it can fail to sufficiently capture the different ways in which stigma can play out, the relationships that exist within the workplace and the political and economic context within which decisions are made. These omissions have potentially important implications for academic debates, policy and practice.
