Become a EUTOPIA Student Career Ambassador

Would you like to:

- Participate in a European project with prestigious universities?
- Work with students from abroad?
- Promote different career opportunities at EUTOPIA universities and in the regions of EUTOPIA universities on your university campus?
- Improve your CV and acquire new skills and competences?

If so, why not apply to become a EUTOPIA Student Career Ambassador?

Background

EUTOPIA is an alliance of leading universities in Europe (CY Cergy Paris University, Vrije Universiteit Brussel, University of Warwick, University of Gothenburg, Universitat Pompeu Fabra Barcelona and University of Ljubljana) whose joint mission is to build a distinctive, daring and driven alliance of transformative and engaged institutions:

- To produce challenge-driven research and teaching
- To prepare empowered European graduate employment
- To lead regional and international involvement
- To support diversity, inclusivity and widening citizenship

The opportunity

As a EUTOPIA Career Ambassador you will be heavily involved in the shaping of the project’s extra-curricular offer of Careers Webinars to students with Warwick’s Lead Career Ambassador, Warwick’s Careers Team and other university officials as well as with the Career Ambassadors at the other 5 Partner Universities.

Each year, each Partner University will host 3 workshops to aid EUTOPIA’s students with their career paths and mobility across Europe. The career ambassador will be working alongside students in universities in Belgium, France, Spain, Slovenia and Sweden, thus language skills would be a bonus but not essential as EUTOPIA and its events run in English. In addition, they will need to be available for meetings with the other careers ambassadors approximately once a month, as well as meetings with Warwick’s Careers Team in order to ensure the EUTOPIA careers events do not overlap with Sector and Recruiter events.

The role involves commitment and interest in the long-term project and requires a student who will see the project through to the end of its pilot stage (another 2 years). The Career Ambassadors are also responsible for marketing the project more broadly. EUTOPIA Careers has a LinkedIn group and an Instagram account which are run by the ambassadors; therefore content creation experience would be beneficial. Marketing and promotional materials are created on Canva, so experience or knowledge of Canva would also be helpful. You will also prepare reports on activities undertaken, reflecting on learning and making recommendations to inform EUTOPIA’s future direction.
If you have any questions about the role please feel free to email Ashmeena Rickaby, lead Career Ambassador a.rickaby@warwick.ac.uk.

To apply

Applications should be emailed to Anne Wilson, Head of Careers (a.e.wilson@warwick.ac.uk) by 23.59 BST on 20\textsuperscript{th} August 2021.

In your application, please answer the following four questions, using a maximum of 150 words for each question:

1. Why are you applying for this role?
2. What would you personally hope to contribute to the project?
3. What particular skills and qualities do you bring? (please provide supporting evidence of these).
4. How would you hope to benefit from this opportunity?
