GLOBAL RESEARCH PRIORITIES
INTERNATIONAL DEVELOPMENT

Dear GRP ID Members,

Here we are at the final term of the year! It went by in a flash!

This term boasts our most favourite event of the year - the Annual Postgraduate Conference followed by a keynote address given by Greg Power.

We're always very excited about our annual conference as it brings together so many interesting pieces of work exploring our Annual Theme.

We also want to alert our members that we have modest sums available for seed funding applications. Further details below.

The GRP in International Development has modest sums available for potential seed funding applications. If you are interested, please submit an application using our [form here](#). Please note that we will only be accepting applications until **Thursday 23 May**.

All successful applicants will need to spend their full funding amount **before** the end of the financial year.

Our Annual Postgraduate Conference will take place on **Thursday 13 June**. This one-day conference is designed to give postgraduate students from different research areas an opportunity to present and discuss their research and form new connections with their colleagues across different disciplines. Please register your place at the [PG Conference here](#)

Following the conference, Greg Power, Founder and Chair of Global Partners Governance (GPG), will be giving the Keynote Address on "Getting to Grips with Politics in Complex Places." To register for this lecture, please [click here](#).

Note that there are two separate registration pages for both of these events.

Annual Photography Competition 2018-19

Hope, Democracy and Development

The GRI International Development Annual Photography Competition has, for the past four years, attracted hundreds of high quality photographs taken in locations all over the world. The Competition is open to any University of Warwick student or staff member. We are looking for photographic images that address the annual research theme on 'Hope, Democracy and Development'. Photographic submissions can interpret the theme in broad terms, and all submissions (whether taken by cell phone, professional camera, or a composite image formed with software or an app) will be considered equally.

There are two submission deadlines:

Submission deadline 1: 29th December 2018 (for inclusion in the exhibition at the City Arcadia Gallery, Coventry City as well as the competition prizes)

Submission deadline 2: 1st April 2019 (for the competition prizes only)

Prizes: First Prize: £150; Second Prize: £100; Third Prize: £50.

Please note: selected submissions from the first deadline will feature in a small group public exhibition at the CITY ARCADIA Gallery, City Arcadia, Coventry, January 2019.

All submissions will be considered for the prizes, and the winners will be determined by a Jury of experts, who will award the three prizes along with commendations for other outstanding photographs.

The Judgement Criteria are: (1) Relevance to the theme of the Competition (2) Creativity and originality (3) Technical and aesthetic quality of the image (4) Composition and lighting (5) Conceptual meaning.

Winners will be formally announced at the prestigious GRI International Development Annual Post Graduate Conference in June 2019 to be advertised.

For the Terms and Conditions and other details of competition submission, please see www.warwick.ac.uk/newsandevents/infocentre/internationaldevelopment/research/annualthemewithwarwickphotocomp.

Submissions to be sent by email or fileshare to the GRI-ID Coordinator, **Sanaa Vohra**, sanaa.vohra@warwick.ac.uk, or the Photography Competitions and Jury Chair, **Dr Jonathan Vickers**, J.P.Vickers@warwick.ac.uk.

Our Annual Photography Competition winners will be announced after the Lecture by Greg Power on Thursday 13 June, during a short prize-giving ceremony.

Other events and news

1. Professor Franklyn Lisk will be holding a GRP-ID sponsored workshop that will be taking place on 22nd May in the IAS Seminar Room (Milburn House).

This is a workshop that is designed specifically to identify and explore conceptual, policy and implementation issues relating to the co-development (with overseas and UK collaborators) of a GCRF research project proposal on harnessing Africa's digital potential. For further details [please see this attachment](#).

2. Warwick's UK Research Office in Brussels (UKRO) contact, Jon Brookes, will be

visiting the University on **Friday, 24th May** to lead two sessions on European research funding and policy. The sessions will be open to academics, departmental administrators and professional services staff. More detail, including links to register, can be found [here](#).
