

DINOSAUR PARK OR ZOO?

*A wealthy billionaire is thinking of sponsoring one of the following two projects:
a **Dinosaur Park** (with real dinosaurs – bringing them back to life) or
a **Zoo for currently endangered animals***

They want to commission research to help them decide which of the two projects to pursue.

In 25 minutes try to identify key issues that need investigating and consider possible research procedures to research procures to explore them, using your professional and/or research expertise.

Step One **Silent Thinking**

Spend five minutes in silence considering individually how you would approach the main task.

Step Two **Idea Sharing**

Go round the group clockwise, for each person to share their ideas.

Step Three **Ask Questions**

Ask one another questions about the ideas.

Step Four **Evaluate**

Discuss pros and cons of the different ideas.

Step Five **Final 5 Minutes**

Put ideas together and decide who will present the group's ideas.

Step Six **Presentation**

One person from your group presents the ideas.

Step Seven **Best ideas**

In your team again, consider which ideas that you have heard from other groups you would like to use, and why.

Step Eight **Reflection**

Share your opinions about the activity and what you have learned from it.

Keep the mood light – aim for a supportive and playful team atmosphere, even though you're competing with other groups!
