

Reimagining research practices: towards a sustainable, ethical and inclusive future

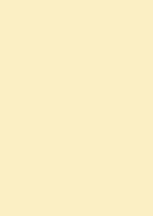

Principal Investigator: Prof Rebecca Lingwood (Interim Vice Chancellor). **Co-Investigators:** Becky Gordon (Research and Enterprise Services), Prof Carlos Lopez-Galvez (Lancaster Institute for the Contemporary Arts), Prof Mark Levine (Psychology), Dr Heather Shaw (Psychology), Dr Richard Philpot (Psychology), Elaine Sykes (Library), Louise Zambianchi (Library) and Prof Philip Barker (Lancaster Environment Centre).
Research Fellows: Dr Samuel Finnerty (Psychology), Dr Yingnian Tao (Psychology), Dr Nuri Kwon (UCA), Dr Seth Robinson (LEC). **Education Fellows:** Dr Daniel Craddock (RES), Dr Valerie Seymour (RES).
Software Developers: John Vidler (Psychology), Glen Dobson (RES). **Project Manager:** Catriona Gold (RES).

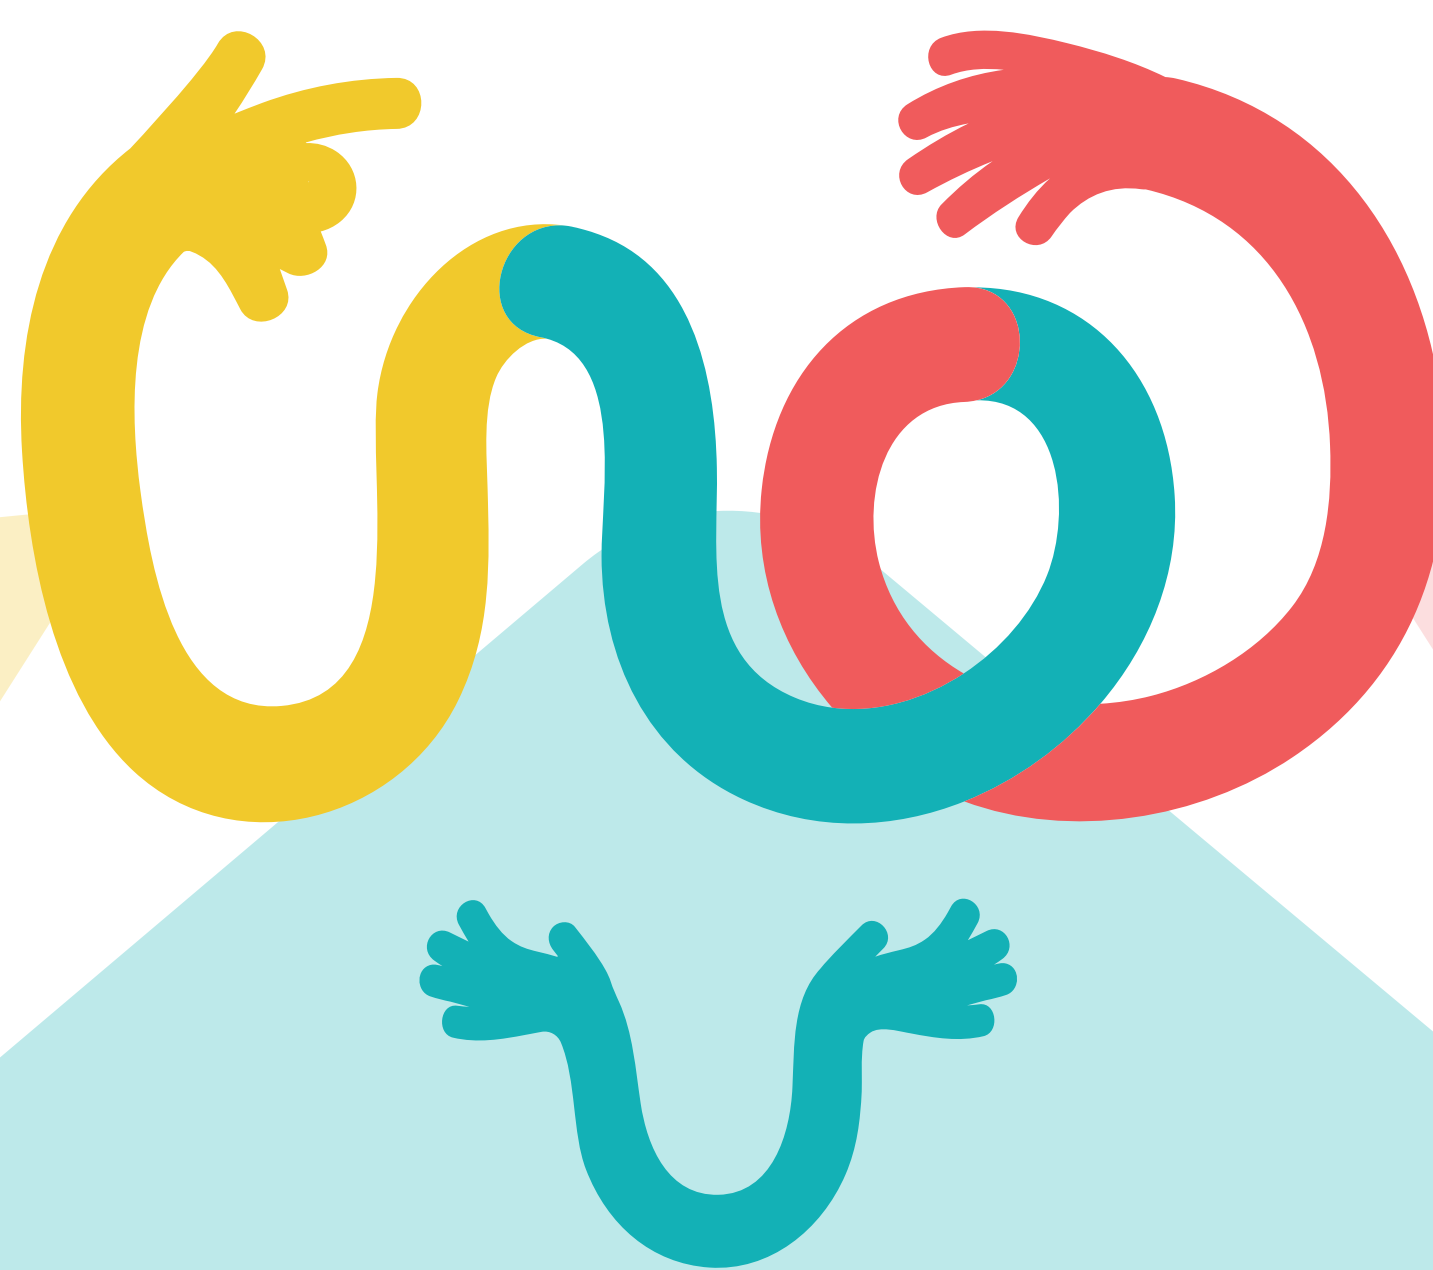

- A 2-year, Wellcome-funded interdisciplinary project co-led by academic researchers and professional services staff.
- We aim to reimagine how research is done by developing more sustainable, ethical, and inclusive practices.

Sustainability

Making research more environmentally sustainable

-  International climate action symposium
-  Faculty sustainability fora and interviews with LU staff
-  Internal sustainability report
-  Interviews with UK HE leaders
-  Linguistic analysis of UK HE sustainability policies
-  Sustainability training package for researchers

Ethics

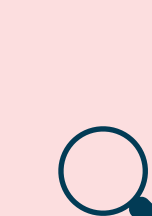

Addressing ethical implications of new forms of digital data & methods

-  'Cuppa Conundrums' ethics workshops exploring ethical issues in research
-  'Cuppa Conundrums' podcast (scan the QR code below!)
-  'Dataveillance' workshops exploring digital surveillance issues
-  Improved 'DECIDE' framework app concerning ethical considerations when using digital behavioural data
-  Revised university ethics policy

Inclusion

Helping researchers undertake inclusive community-based research

-  Focus groups & interviews with scholars doing community-based research
-  Graphic novel about inclusion in community-based research
-  Community Research Digital Toolkit (CREDIT) for researchers
-  Micro:bit device prototypes & guides for citizen science research
-  Community Research Symposium
