Access to Learning Fund for full-time undergraduate students 2018-19

1. What is the Access to Learning Fund?

Access to Learning Funds are intended to provide selective help to undergraduate students who have serious financial difficulties. Grants from the Access to Learning Fund are discretionary and needs-related and are intended to help students access and stay in higher education. Grants are non-repayable and are awarded to help with day-to-day expenses and course-related costs, such as the costs of accommodation, childcare, transport, books and utilities. Students considering leaving higher education because of financial problems are encouraged to apply.

2. Can Access to Learning Funds be awarded to assist with the payment of academic fees?

No. Funds cannot be awarded to assist with the payment of academic fees under any circumstances. Home and EU undergraduate students can apply for a Tuition Fee Loan from Student Finance England by visiting www.gov.uk/studentfinance.

3. Am I eligible to apply?

The Access to Learning Fund is intended for Home (UK) full-time undergraduate students following a higher education course. Postgraduate and part-time students are also eligible to apply and should refer to the relevant web page for their FAQs.

You will need to show genuine financial hardship and that you have explored and exhausted all other ways of supporting yourself. Full-time undergraduates should have taken out their full entitlement of student Maintenance Loan. The Access to Learning Fund is intended as a safety net for students in financial difficulties, not their main source of support. The Fund is there to help eligible students who have particular financial needs, but we cannot meet every application we receive and we cannot always meet the costs that you might apply for.

Priority is given to certain groups of students when deciding how to allocate funding, for example, students with dependants or disabilities. Other priority groups include:

- Students from low income families
- Students who have entered higher education from care or who are estranged from their families
- Students from Foyers/Supported Accommodation or who are homeless
- Students receiving the final year loan rate who are in financial difficulty

If you are not in one of the priority groups you can still apply, but must provide as much evidence as possible to demonstrate why you have a particular need. Applications cannot be considered from students who have completed, permanently withdrawn from or abandoned their course, or whose entitlement to statutory support has been terminated by their funding body e.g. SFE.
4. **What is a Home Student?**

A Home student is defined as a student who meets certain residency conditions (the same conditions apply to eligibility for government financial support). Usually this means you must have an unrestricted right to enter and remain in the UK and you must have been ordinarily resident in the UK for three years prior to the start of your course. None of this time must have been spent in the UK wholly or mainly for the purpose of receiving full-time education. If you need further information on the residency rules, please contact the Student Funding team on 024 7615 0096 or email to studentfunding@warwick.ac.uk.

5. **I am an EU student. Can I apply?**

EU students cannot apply to the Access to Learning Fund unless you are in receipt of a Maintenance (Living Cost) Loan from the UK government. EU students may be eligible for tuition fee support from Student Finance. For further information please visit [www.gov.uk/studentfinance](http://www.gov.uk/studentfinance). In an emergency EU students will be considered for an award from the **International Students’ Emergency Fund**. However, it should be noted that this is a limited fund for short-term support only. Guidance notes for applications to this Fund can be found on our website. EU students with pre-school age dependants may be eligible for means-tested help with an approved childcare provider and should apply to the **International Students’ Childcare Fees Remission Scheme**. Guidance notes for applications to this Fund can be found on our website.

6. **As a Home student in financial need what help can I expect to receive?**

Grants from the Fund are needs-related and assessed on an individual basis. As a result, we are unable to give a clear indication of the likely value of any possible award until an application has been submitted and the assessment process completed. Grants from the Access to Learning Fund do not need to be paid back.

7. **I am temporarily withdrawn from my studies. Can I apply?**

If you are a Home student and unable to attend your course due to ill health, caring responsibilities or other exceptional circumstances, you can apply for help from the Fund. Awards can be paid if you have not permanently withdrawn from, or abandoned your course and intend to return to your studies.

8. **How do I apply?**

An application form for university Hardship Funds can be downloaded from [www.warwick.ac.uk/hardshipfunds](http://www.warwick.ac.uk/hardshipfunds). Alternatively you can request a form from the Student Funding Office, Senate House. Once you have completed the form, you will need to return it to the Student Funding team along with photocopies or scanned copies of the supporting documentation detailed within the form. Please note that spreadsheets of bank transactions will not be accepted. Any online banking statements must include your name and account number. Any receipts or invoices associated with the application must be on headed paper and dated and signed.

9. **I have completed the application form and enclosed the necessary documents. What happens next?**

Once we have received your form and supporting documentation, the Student Funding team will contact you to arrange a short confidential interview with a specialist Student Funding Adviser which will take approximately 30 minutes to one hour. The interview will be informal and will give you the opportunity to discuss your individual needs and circumstances in detail. Please ensure you bring your University ID card to your appointment.
Please be assured that the Funding Adviser will consider your best interests at all stages of the assessment process. However, you should be aware that the Funding Adviser works within the National Association of Student Money Advisers (NASMA) and University guidelines for the assessment of awards and distribution of funds. It may be necessary during the interview to refer to your bank statements, credit history and spending patterns. In some cases the Funding Adviser may suggest that you speak to one of our specialist budgeting advisers. The discussion may also explore opportunities for part-time work and other funding that may be available to you. Any questions are not intended to be intrusive, but to allow the Funding Adviser to form a complete and comprehensive assessment of your financial situation and, if possible, to recommend a successful outcome to your application.

10. What happens after the interview?

After your interview a short confidential report summarising your discussions will be prepared and your application will be assessed against the guidelines for the allocation of funds. All recommendations for awards are considered by a minimum of two members of the Student Funding team.

11. How will my application be assessed?

Your application to the Access to Learning Fund will be treated either as a ‘standard’ or ‘non-standard’ claim. We will assess ‘standard’ applications under an additional need method that looks at the difference between accepted essential expenditure and income. If you have unforeseen circumstances your application can then be considered under a ‘non-standard’ assessment. The majority of applicants require standard assessments in the first instance.

In certain circumstances students may be advised to seek specialist individual money advice or debt counselling, in addition to any financial help awarded from the Fund.

**Standard awards** can help to meet general costs associated with being a full-time undergraduate student such as living costs e.g. rent/mortgage payments, food, utility bills etc. In addition, assistance with course-related costs such as childcare, travel and books is available for all full-time undergraduate students. A figure for general course related costs is pre-set at the start of the academic year and applied to the assessments (see appendix for the current year rate). Students using childcare should complete and submit a Childcare Information Form (one per child) signed by the childcare provider.

Applications will be assessed against NASMA guidelines for the allocation of funds. It is expected that students will be able to supplement their income from a variety of routes, for example, part-time or vacation work. The standard assessment procedure for full-time undergraduate students uses an assumed income figure which is less for final year students. These figures are set annually (see appendix for the current year rate). The assumed income is not applied to students with dependants, a disability or ill-health.

The agreed guidelines also set an expenditure level for core living costs for essential living expenses such as food, clothes, utility bills etc. This is uprated annually in line with increases to benefit rates. The relevant amount will depend on your circumstances, for example if you have a partner and/or children living with you (see the appendix for the current year rate). Variable expenditure on items such as rent, travel and childcare costs will also be taken into account.

A cap is applied to include the cost of rent, utilities and travel to and from the University. This is applied to students living on or off campus or in their parental home (see appendix for the current year rate). All
students, including those living at home, should provide evidence of an accommodation contract or regular rent payments. This cap does not apply to students with a mortgage, dependants, a disability or ill-health.

For the majority of single students, local travel is included at the bus pass rate. For students living further away from the university, for example, in their parental or family home, travel is capped at the cost of a weekly travel card or a reduced fare using a rail or coach card (available to full-time students of all ages). Evidence of travel costs should be provided. In some cases, for example for students with dependants or a disability, car costs may be considered. In these cases a standard mileage rate to include tax, insurance and maintenance is applied (see the appendix for the current year rate).

**Non-standard awards** can help to meet exceptional costs, such as repairs to essential household equipment and assistance with priority debts. Emergency situations (such as travel costs for family illness or bereavement) can also be considered under the non-standard award assessment. In addition to these examples, costs for disabled students not met by Disabled Students’ Allowances (DSAs) can be considered.

If you are unclear about how your application will be assessed, the Student Funding Adviser will be happy to discuss this further with you at your interview.

12. How and when will I find out if my application has been successful?

If your application form is completed accurately and the appropriate documentary evidence supplied, an assessment and decision should be made within 10 working days of your interview. You will be notified of the outcome via university email. Any award will be paid within a further 10 working days (providing you have submitted your bank details on receipt of your email, if applicable). Please note payments may be made in instalments.

However, in some cases we may need to defer your initial assessment or payment beyond 10 days to deal with a particular circumstance, for example additional evidence or bank statements may be required. If this applies to your application, we will let you know the reason for the delay.

13. Will I get my original documents back?

Please only provide photocopies or scanned copies of your supporting documentation. Any original documentation you supply as part of your application will be returned to you at your interview or will be left for you to collect from the Student Reception at Senate House.

14. Can I reapply to the Access to Learning Fund?

Students are assessed for the whole academic year and therefore should only need to apply once. However, you can reapply to the Access to Learning Fund during the same academic year providing you are still fully registered on your course.

If your circumstances have changed since your original application please complete a new application form and provide photocopies or scanned documentary evidence for the change in circumstances. A change of circumstances may include marital status, number of dependants or a change in household income/expenditure. Please also provide bank statements for the last 3 months for all of your accounts.

If you are reapplying to the Fund for reasons other than a change in circumstances, for example in the case of an emergency situation, please complete a [Student Hardship Funds Re-application form](#) and provide...
your bank statements for the last 3 months for all accounts and any other relevant photocopied or scanned copies of documentary evidence.

In all cases you will be asked to attend another brief appointment with a Student Funding Adviser and you will be notified of the outcome of your re-application as above.

15. Can I apply in the summer vacation?

If you are in financial difficulty you can apply to the Access to Learning Fund in the summer vacation, although usually this applies to mature students, students with dependants or a disability or students who are estranged from their families. This will require a new application form as your income details will be different from those in your original application. Students applying after the 1st August will need to complete an application form for the new academic year. Students applying directly before the end of the university financial year on the 31st July, may be issued an emergency loan prior to an interview with a Funding Adviser at the beginning of August. Students who are eligible for means-tested benefits during the summer vacation i.e. lone parents, student couples with dependants and students with qualifying disabilities, are expected to apply for them prior to applying to the Access to Learning Fund.

The Access to Learning Fund can also offer short term help at the start of the new academic year (usually September) to eligible continuing students whose Income Support, Jobseeker’s Allowance or Universal Credit has stopped and Housing Benefit/Local Housing Allowance has been reduced, but who have not received their student maintenance loan and any supplementary grants.

16. Will an award from the Fund affect my entitlement to benefits?

Payments from the Access to Learning Fund may have implications for your entitlement to benefits. If you receive help from the Fund you can request a document to present to the Jobcentre Plus/Housing Benefit office to explain the circumstances of your award.

17. Can I apply for the cost of a diagnostic test in order to claim Disabled Students’ Allowances?

Home (UK) students may be eligible for an award from the Access to Learning Fund to help with the cost of a preliminary diagnostic test. All claims must be submitted within three months of the date of your assessment appointment and will only be considered following initial screening by the University Disability Service.

If you are eligible for a Warwick Bursary

Please complete the online form within three months of the date of your test. Ensure that you upload a scanned copy of your invoice or receipt which clearly shows the date of your diagnostic test appointment. If you are not sure if you are eligible for a Bursary, please contact us on 024 7615 0096 or email studentfunding@warwick.ac.uk.

All other full-time undergraduate students

All other full-time undergraduate students will need to apply for a full means-tested Access to Learning Fund assessment. Please complete the Access to Learning Fund Application Form and return it to the Student Funding office along with photocopies or scanned copies of the supporting evidence required (please also include a copy of your receipt or invoice from your assessor which clearly shows the date of
your diagnostic test appointment). We will contact you to arrange an appointment to see a Student Funding Adviser as soon as possible.

Please note that applications cannot be considered from students who have completed, permanently withdrawn from, or abandoned their course.

18. Can I apply for help with the cost of my £200 equipment contribution for my Disabled Students’ Allowance?

If you have been recommended a computer or laptop as part of your assessment for a Disabled Students’ Allowance (DSA), you will be required to pay £200 towards the purchase. You may be eligible for financial assistance to help with this cost. For details, please see the Disability Services Disabled Students’ Allowance page. If you need to apply to the Access to Learning Fund, please include the information on your application form and provide evidence so that we can include this as part of your essential expenditure.

19. Can I apply for an emergency loan?

Yes, if you are requesting an emergency loan or other short-term help, applications should be processed and paid within 2 working days and depending on your situation may be processed and paid within 24 hours. In order to obtain a short-term loan, you will need to show your student ID card and bring evidence of your current bank balance. Please note that you will be limited to a maximum of 3 emergency loans in any 12 month period.

20. Evaluation

As part of our ongoing commitment to improving our service to students, you may be requested to complete an online evaluation of your application and assessment experience.

21. Appeals Procedure

You can download the Hardship Funds Appeals Procedure

22. Who should I contact if I have any questions?

If you have any questions related to the Access to Learning Fund, the application process or Student Funding in general, please do not hesitate to contact the Student Funding team on studentfunding@warwick.ac.uk, or by telephone on 024 7615 0096

APPENDIX (Rates and Caps for 2018-19 Academic Year)

- Assumed Income for Continuing Students: £1,850 per annum
- Assumed Income for Finalists: £617 per annum
