Listen to what employers have to say,...

Clara Chan - CEO of LEE KEE Group

"My advice to students and graduates would be to keep an open mind when applying for jobs. Some students don't like to join industrial/manufacturing industries as they believe it is very labour intensive. However, it can be full of lots of exciting and new opportunities, for example my company are looking into new technologies such as Artificial Intelligence etc."

ICAEW Country Representative

“Remember that your overseas experience will be very valuable when you return to your home country, but you will also need to demonstrate that you can adapt to the local culture, particularly if you have been abroad for a few years”
