

Centre for Student Careers & Skills

Policy statement on advertising events on myAdvantage

We aim to provide the widest possible range of opportunities to our students and we work in partnership with employers and other organisations to achieve this.

Unfortunately we are not able to advertise events organised by Warwick Students' Union societies or other Warwick student groups because if we advertised events for one, in the interests of fairness, we would need to advertise for them all. As there are over 250 societies, this could inundate our myAdvantage listings and could make it more difficult for students to find events organised by the Centre for Careers & Skills, or by external partners, which many students search for through myAdvantage.

There are other channels for advertising events organised by Students' Union societies and other student groups, particularly through the Students' Union. The Students' Union can be contacted at: enquiries@warwicksu.com

In applying this policy we aim to promote the University's values and behaviours, including the core value of [freedom of speech](#).
