At Warwick Conferences we’re all about making the world a better place, and that’s why our sustainability efforts are much more than just smooth talk.

We know the great majority of our clients are committed to reducing their environmental impact, and expect their suppliers to do the same. So, we have been working hard to minimise ours, and will continue to do so.

Our Training and Conference Centres are committed to reducing our environmental impact as much as possible, and we ask our guests to support us on this mission.

As a responsible visitor, why not consider the following ways you can help reduce your footprint?

**OUR FOUR TOP TIPS:**

- **Enjoy our locally sourced and produced, seasonal food offering**
  
  Our catering is Food for Life accredited by the Soil Association, so it’s good for the palette and good for the planet.

- **Consider your carbon footprint**
  
  Whether that’s by leaving the car at home, using the stairs whenever you can, or using water wisely while you are staying with us.

- **Join us in supporting green businesses**
  
  Look for the Green Tourism logo here, and when you are booking other accommodation or days out.

- **Respect and love the local environment**
  
  Not just here but at home too! Help us look after our gardens by recycling your waste, and enjoy the many cycle and walking routes around campus.

The more sustainable we can make our venues, the longer we can go on providing great facilities for you to enjoy.
