

## Welcome to our Spring Term 2026!

This spring term, we are pleased to offer a repeat of our most popular sessions, alongside over 20 additional workshops that were not delivered in the autumn term. Before you explore the full range of sessions available, we invite you to learn more about who we are, what we do, and how we aim to provide you with the best possible support throughout your studies at Warwick.

### What is the Researcher Development Programme

It is a training programme offered by the Doctoral College. It is designed to help you make the most of your time at Warwick and of yourself. We offer a wide range of workshops to support your research, your personal, and your professional development. The curriculum is comprehensive, integrating intellectual expansion with wellbeing. Our holistic approach recognises PGRs as researchers and academics, and also as individuals with diverse needs.

We believe that success encompasses more than just research achievements; it also includes the overall fulfilment and growth of an individual. You can find out more about the programme here: [Researcher Development 2025-2026](#)

### What to expect in our sessions

We run a mostly online programme (RDO) with some in-person sessions of support and training throughout the year including **weekdays**, **evenings** and **weekends**; so hopefully you will find an event which suits your timing. Our sessions are coaching, and development focused. We do share knowledge, but we aim to help you find the answers for yourselves. The sessions are interactive, and you are fully in charge of your own learning and development. We hold all our online events on our [RDO Teams channel](#), where we also publicise any research related events that we hear about.

### How to book a workshop

Doctoral students (PhD, EngD, Professional Doctorate, EdD, PhD by publication) or a Masters by Research (MRes, MPhil) can book via [Warwick SkillsForge](#) (booking links are also provided in this document). Once booked, you will receive a Microsoft Teams meeting link 24hrs before the session (but we encourage you to save the event in your own calendar as reminder). \*If the session you wish to attend is fully booked, please add your name to the **waiting list**. We repeat sessions and you will be automatically allocated a spot and guaranteed a place when we next offer them.

### Who are we

Researcher Development is offered by a team who have experienced the highs and lows of research, are active researchers or lecturers (or both); and most importantly, skilled facilitators. We are Michele, Kate, Frane, Luana, Anna, Saadia, Hande and Vicky. You can meet the team [here](#).
