**UNIVERSITY OF WARWICK**  
**CDT MANAGEMENT COMMITTEE**  
**OPEN MINUTES OF THE MEETING HELD 10:00, 19 January 2023, Microsoft Teams**

**Present**  
- David Leadley  
  Deputy Pro Vice Chancellor, Research (Chair)  
- Robin Allaby  
  NERC Centa Academic Director  
- Nicola Attridge  
  PGR Finance Manager  
- Pierre Botcherby  
  Midlands4Cities Administrator  
- Daniel Branch  
  Academic Director of Graduate Studies  
- Steven Brown  
  Analytical Sciences Director  
- Anton Cleverly  
  PGR Representative  
- Jon Coaffee  
  Midlands Graduate School Director, TRANSFORM lead  
- Claire Edwards  
  Research Strategy & Development Manager  
- Tomomi Kimura  
  Research Strategy & Development Manager  
- Helen Knight  
  Hetsys & Diamond Science Technologies Administrator  
- Jonathan Millar  
  MRC DTP in IBR Academic Director  
- Vardis Ntoukakis  
  MIBTP Academic Director  
- Ashleigh Skelhorn  
  Midlands Graduate School Consortium Manager  
- Mike Tildesley  
  Mathsys & IGPP Academic Director, CDTMC BGS Rep  
- Rebecca Vipond  
  CDT & PGR Scholarship Manager (Secretary)

**Attending**  
- Emilie Day  
  Analytical Sciences Administrator  
- Mehrdad Dianati  
  Future Mobility Technology Director  
- Bertram During  
  Frontiers in Maths and Stats Co-Director  
- Andrew Lake  
  Management Accountant (PGR Funding)  
- Rebekah Luck-Owen  
  PG Admission Officer  
- Julie Macpherson  
  Diamond Science Technologies Director  
- Rachel Mason  
  Frontiers in Maths and Stats Administrator  
- Rachel Millichap  
  Doctoral Programmes Manager, Maths  
- Anastasia Papavasileiou  
  Frontiers in Maths and Stats Co-Director

Governance

130 Membership and Terms of Reference 2022-23

The Terms of Reference were upheld. The committee membership for 2022-23 changed as follows:

- Steven Brown (Analytical Sciences Academic Director) joins as internal CDT representative.
- Lara Barzon and Anton Cleverly join as PGR representatives.

Finance & Resources

131 UKRI Training Grant Stipend Increase: Impact on Future Recruitment

The Committee received a verbal report with key details and discussions as below:

UKRI have announced that due to current and predicted future stipend rate increases, recruitment numbers of future PGRs may need to be adjusted. In the current year, CDTs are advised that recruitment can continue as normal, with 2024 entry recruitment possibly being adjusted due to budget constraints, in conversation with PGR Funding. The 2023-24 stipend rate is due to be announced in spring, later than usual.

132 Updates Covid Extension Report

The Committee received the report (132-CDTMC, Restricted) and key points and discussions were as follows:

An additional EDI analysis of decisions made has been included. Identified biases may be explained by the changing eligibility of certain scholarships, e.g. CSC scholarships were included much later in the process, leading to more applications being declined for individual eligibility reasons.

Funding extensions will continue to be rare (covid extensions are now closed in the Doctoral College), with PGRs being advised to plan research and contingency in advance, and to seek support for unforeseen circumstances through other routes such as paid sick leave, PGR Hardship Fund.

133 FCCG Report

The Committee received the report (133-CDTMC, Restricted) and key points and discussions were as follows:

All current training grant extension requests have now been approved by research councils. Some funding on ending grants will be returned as it is not possible to fully spend within the parameters and timings dictated by research councils. To minimise the risk of funding being returned where there is a forecasted underspend on a live grant, the PGR Funding Team are liaising with CDT management teams to increase recruitment or other spending where appropriate.

134 Equality, Diversity, and Inclusion

The Committee received a verbal report with key details and discussions as below:

- EPSRC have published a new EDI Action Plan
- PGR representatives have now been recruited to BGS EDI Working Group
- The first 2022-23 meeting of the PGR EDI WG Minutes were provided for reference (137-CDTMC)

135 Internal CDT Annual Reports

The Committee received the report (135-CDTMC, Restricted) and key points and discussions were as follows:

a) Analytical Sciences CDT

A new EPSRC bid is being developed, evolving from this and previous related CDTs. This CDT has been successful in leveraging significant industrial funding. Recruitment this year has been more difficult than in previous years, the reason is not immediately clear. PGRs are all on schedule to submit within their expected funding and registration period. Collecting data on alumni outcomes is commencing, most successfully through LinkedIn. Current PGRs develop their transferrable skills by undertaking PGCTSS and off-site residential.

b) Diamond Science Technologies CDT

Significant industrial funding has been leveraged, which has contributed to a successful EPSRC Prosperity Partnership Grant (PGRs from this grant have already recruited to join the existing DST cohort). While there is no specific EPSRC CDT bid being prepared, three current CDT bids could lead to studentships in this area and
further industrially funded studentships could be forthcoming. PGRs are going to increasing numbers of conferences following the pandemic. Current PGRs are encouraged to follow their home department’s policy on transferrable skills training.

c) Frontiers in Maths and Stats CDT
   i. Maths

All PGRs in the department are included in the CDT, including those funded by external sources e.g. ERC, Halbron. PGRs undertake bespoke PhD level Maths training in the first year, with transferrable skills training in part through TCC, ongoing in further years. Recruitment is healthy, perhaps due to the unique CDT training environment provided. The CDT is looking to increase the percentage of female PGRs in future cohorts. Other than specific individual cases, all current students are on track to submit on time. A related EPSRC CDT bid being developed.

   ii. Stats

All PGRs are included in the CDT as well with a similar unique training environment to Maths, but no external funding currently leveraged. An EPSRC CDT bid being developed.

d) Future Mobility Technologies CDT

Recruitment is currently healthy, mostly consisting of international students. Two new EPSRC CDT bids are being developed. Collaboration agreements still take too long to be agreed and signed, which slows down recruitment. Work has been ongoing to streamline Warwick’s processes, but often delays come from partners.

**Other**

124 Any other business

- It was agreed that an institutional PGR FEC/finance model would be beneficial.
- A fee waiver process for PGRs who are recruited with home fee funding is in place, though there are impacts on department surplus and other income (e.g. HESA student grant). It is vital to articulate the non-financial impact of PGRs to all stakeholders as they are a financial loss-maker but imperative to the running of a productive research-intensive department/institution.
- EDI data can be provided by the Doctoral College to colleagues writing bids.
- Delays to the ethical approval process were reported. The ethics committee should be made aware of individual as the new light-touch process should minimise further delays.

Next meeting: 3 May 2023, 14:00-16:00, Microsoft Teams

### DECISIONS AND ACTIONS
