Scholarship competition timeline and process

The China Scholarship Council-University of Warwick scheme is a jointly funded scholarship and so the application process is slightly different to other competitions administered by the University of Warwick.

➢ Apply for admission at the University of Warwick
➢ Submit your scholarship application by Thursday 16 January, 23:59 GMT, 2020
➢ Upload all supporting documents by 23rd January 2020.
➢ Applicants must hold an unconditional study offer by 24th January 2020.
➢ Applications are sent to department who nominate their top applicants
➢ Nominated applications are assessed by a group of faculty assessors who decide who to nominate for the award to the CSC
➢ Applicants will be notified as to whether they have been nominated for a scholarship by 13 March 2020
➢ Successful applicants apply directly to the CSC for funding
➢ CSC notifies applicants of outcome of scholarship
How to Apply

Navigating the Scholarship Application Form

Apply

Select scholarship ▸ Your application ▸ Referees ▸ Review and submit

Please select the course your scholarship application relates to.

Course

Life Sciences PhD (applying)

China Scholarship Council – University of Warwick Scholarship 2020

Eligibility

In order to be eligible for the China Scholarship Council – University of Warwick Scholarship, you must be applying for an MPhil PhD or PhD at Warwick, or, be enrolled on an MPhil/PhD or PhD in your first year of study. You must hold a People’s Republic of China Passport (applicants from Hong Kong or Taiwan are not eligible), and either be a permanent resident in China or studying overseas. Those working overseas are not eligible. You must check the eligibility rules on the China Scholarship Council website. Applicants must hold an unconditional offer for a full time MPhil/PhD or PhD at the University of Warwick commencing in October 2020.

Award

For 2020/21 entry there are up to 25 joint funded PhD scholarships in collaboration with China Scholarship Council (CSC). The University will cover the full payment of overseas tuition fees and the CSC will provide a maintenance stipend and return international airfare between the UK and China for successful applicants. It is a requirement of the scholarship that

Name: [Redacted]

Nationality: Greek

Country of birth: China, People’s Republic of

Fee status: EU Fees

Fee status query: Not set

Degree: UK Bachelor’s Degree: BA, BSc etc.

Subject: Psychology

Institution: University of Nowhere

Start date: 9th Aug 2017

End date: 9th Aug 2018

Country: UK

Degree: UK Postgraduate Master’s degree: MA, MSc etc

Institution: Institute of Nowhere

Start date: 9th Aug 2016

End date: 9th Aug 2017
In order to be able to apply for a scholarship, you should already have applied to study the course via the Universal Admissions application system. This is because the funding application takes information from your study application in order to save you from entering various details a second time. Once your log-in has been generated for the study application, you will then be able to use this for your scholarship application.

To be considered for the China Scholarship Council-University of Warwick Scholarship you will need to click on the ‘Apply Here’ link on the scholarship page.

You will be taken to the ‘Select Scholarship’ page where you can review your details and qualifications. The information here has been taken from your course application.

You will need to select the course you are applying with for your scholarship application. If you are applying for more than one course you will need to complete a scholarship application for each course application.

Click on the  icon to begin your application.

At the top of the form you will see a progress bar. You can switch between sections before submitting your application.

At the bottom of the form you have the option to save your application and return to it later; withdraw your application; or submit your application. If you choose to withdraw your application you will not be able to create or submit a second one for that course.

For students applying in their first year you will see the Supporting Documents step in your progress bar.
Here you can upload new transcripts which were not available in your original course application. Any documents that are not transcripts or related to your qualification will not be considered.

**Attach any additional documents to support your application.**

Select a file to attach

Documents must be converted to PDF before upload.

Click on the ‘Referees’ tab. Students in their first year are required to register two new referees. To do this click on the ‘Add new referee’ tab and enter the referee’s details.

New applicants will not have this function. We will use the references submitted with your course application.

**Request help**

You may contact The Doctoral College within the application form if you require help.

To do this, click on the Request help icon above your ‘Application info’ box. You will be able to send the Scholarship Team within The Doctoral College a direct message. You can indicate whether you would like the Scholarship Team to access your draft application.

The Scholarship Team will assist you with technical difficulties; they will not advise you how to answer the scholarship questions.

**Application questions**

There are three mandatory questions you will need to complete before submitting your application. Question one and two respond to the Postgraduate Research Ranking Criteria. See Appendix 3 for Ranking Criteria.
1. In 300 words or less, describe how best you meet the person and preparedness descriptors. You may wish to consider your academic history, skills and expertise, professional experience, and awards or publications.

2. In 300 words or less, describe how best you meet the project and place descriptors. You may wish to consider the significance of your project, engagement with relevant literature, and the project’s fit with your proposed supervisor and department.

3. In 500 words or less, provide a summary of your research proposal as appropriate to your discipline and your ability to complete it. For very technical disciplines where advanced detailed might be beyond the current research of an undergraduate or postgraduate taught degree, candidates are encouraged to describe the general area and fundamental open problems that motivate you to pursue the topic, as well as commenting on your academic background and suitability to conduct the research.

While your department may access your research proposal from your course application, the Faculty Assessors will use only your 500 word summary from your scholarship application. They will not have access to your research proposal.

Before you begin your application, contact your prospective department to discuss your project and how it will fit with their research. You should be able to demonstrate in your answers that you have engaged with both the department and ranking criteria.

A strong application shows initiative.

You must review the Ranking Criteria before starting your application as you will be assessed by how you engage with these descriptors in your application. Click on the icon next to question one and two for the criteria.
Supporting documents

New applicants

You are not required to upload any supporting documents to your scholarship application. We will have access to your supporting documents uploaded with your course application.

First year applicants

You will be required to register two new referees for your scholarship application. Both should be academic references and one referee should be your supervisor. You should ensure that your referees have agreed to provide you with a reference within the stipulated timeframe.

You may upload new transcripts if these are available, but any other type of supporting document will not be considered.

What documents will be assessed with my application?

The department will have access to your supporting documents from your course application and will use these to write their nomination statement. See information above on first year applicants.

The Faculty Assessors will have access to your transcripts and references.

Can I upload new documents after I have submitted my scholarship application?

You may upload new supporting documents to your course application however only the department can access these. The Doctoral College will not upload documents on your behalf.
What happens after your application is submitted?

Before you submit your application you will be able to review your application answers. The system will prevent you from submitting your application if you have not completed your application properly and will notify you of any issues.

You will not be able to amend your application once you have submitted.

You will be sent a confirmation of submission email containing a URL which will take you directly to your application. You may also bookmark the Scholarship Application Form page so you may visit it directly.

You can view unsubmitted, submitted, withdrawn, and rejected applications from the Homepage of the Scholarship Application Form.

The Assessment Process

Competition for awards is very high and scholarship offers will be made to those who are able to demonstrate academic excellence and the potential to be an outstanding research student.

Warwick operates a transparent ranking criteria that enables candidates to understand how their application will be assessed. Refer to Appendix 3 for the Ranking Criteria.

Selection and Assessment
Departments are asked to nominate their strongest applications and provide a nomination statement. The nomination statement will contextualise your application and references, and will outline your strengths and fit within the department. Due to the limited number of awards available, departments are allocated a specific number of nominations.

Applications will be assessed by a group of Faculty Assessors across each Faculty.

The Faculty Assessors will score independently then convene at the Faculty Graduate Awards Committee to discuss the ranked applications and approve the award nominations. It is the Faculty Graduate Awards Committee’s responsibility to ensure that university processes and policies are free, fair, and transparent.

Notification of scholarship results

All applicants will be informed of the results by email by 13th March 2020.

Due to the volume of applications we receive each year, we are unable to provide any feedback to applicants.

Please be aware that an application must have been submitted by the scholarship deadline in order to receive a notification of results, and any late applications will not be considered for a scholarship.

If you have been nominated for a scholarship you will then need to apply directly to the CSC for funding. The CSC will send you information as to whether you have been awarded the scholarship.

Frequently Asked Questions

1. Once I have submitted my application, can I make any changes?
   No, once you have submitted your application you will not be able to make any changes. Therefore you must double check your application in its entirety before submitting. The Doctoral College cannot make any changes to your application.

2. Can I receive a scholarship offer if I haven’t received an admission offer?
   No, you must have an offer of admission in place to receive a scholarship offer.

3. I’m updating my CV, where do I upload it?
   The scholarship assessors will not review CV’s as part of this competition.

4. Can I apply now for entry in 2021/22?
   No, the application process is specifically for funding starting in October 2020, and subsequent funding schemes may be subject to change. Information on the next year’s funding scheme will be on the Doctoral College’s website in late Summer 2020.

5. My fee status is incorrect, how do I get this changed?
   You should contact the Postgraduate Admissions team to challenge the decision on your fee status. They will ask you to complete a form and submit supporting evidence for them to make a decision. Any
changes to your fee status should be reported to the Doctoral College before the department’s nomination deadline.

6. Who do I contact if I have any queries not shown here? You can email the Doctoral College at doctoralcollege@warwick.ac.uk.

Appendix 3

Ranking Criteria for competition applications

Applications are ranked in order of preference – 1 being the most highly ranked application. Judgment is made under two broad categories: Person and Preparedness and Project and Place. The following descriptors indicate the characteristics considered under each heading. It is important to note that the descriptors below should be used to guide assessors, but the University has consciously moved away from a defined scoring criteria in order to recognize areas such as professional experience.

**Person and Preparedness descriptors**

<table>
<thead>
<tr>
<th>Descriptors</th>
<th>Excellent</th>
</tr>
</thead>
<tbody>
<tr>
<td>An applicant with an outstanding academic record, very well-equipped for doctoral study, usually evidenced by:</td>
<td></td>
</tr>
<tr>
<td>• a first class degree, or a distinction at Masters level, or equivalent professional experience</td>
<td></td>
</tr>
<tr>
<td>• excellent references</td>
<td></td>
</tr>
</tbody>
</table>

1 * An applicant with substantial and relevant professional experience may be judged to have an outstanding, strong or solid academic record without having achieved the degree classification associated with that category. Applicants in some disciplines are often established and successful practitioners undertaking applied research in professional contexts. They typically have significant professional knowledge and experience that bears directly on their ability to undertake doctoral research. Furthermore, in light of recent grade inflation, the degree classifications of applicants who graduated many years ago may not be directly comparable with the degree classifications of recent graduates.
An applicant with a strong academic record, well-equipped for doctoral study, usually evidenced by:

- an upper second class degree, or a merit at Masters level, or equivalent professional experience
- good references

An applicant that fulfils the academic requirements for entry to doctoral study but does not demonstrate that they are equipped to excel, usually evidenced by:

- a lower second class degree, or a pass at Masters level, or equivalent professional experience
- acceptable references

An applicant with a weak academic record, ill-equipped for doctoral study, usually evidenced by:

- a third class degree or no degree level qualification
- poor references

### Project and Place descriptors

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Project and Place descriptors</th>
</tr>
</thead>
</table>
| **Excellent** | - A project with the potential to make a significant contribution to the field  
- A clearly articulated and robustly justified research question  
- Sophisticated critical engagement with relevant literature  
- An appropriate and well-developed research design  
- An excellent fit between the project and the expertise of the proposed supervisors, or in the case of a project the applicant is recruited to, an excellent fit between the candidate’s prior knowledge/experience and the project.  
- An excellent fit between the project and the research strengths or priorities of the host department/University |

| **Good** | - A project with the potential to make a strong impact within the student’s field  
- A clearly articulated and justified research question  
- Critical engagement with relevant literature  
- An appropriate and partially-developed research design  
- A good fit between the project and the expertise of the proposed supervisors, or in the case of a project the applicant is recruited to, a good fit between the candidate’s prior knowledge/experience and the project.  
- A good fit between the project and the research strengths or priorities of the host department |

---

2 In disciplines where the project is recruited to rather than designed by the applicant, greater reliance will be given to the departmental statement demonstrating the expected characteristics.
- A project with the potential to make an original contribution to the field
- A clearly articulated research question
- Engagement with relevant literature
- An appropriate indicative research design
- An acceptable fit between the project and the expertise of the proposed supervisors, or in the case of a project the applicant is recruited to, an acceptable fit between the candidate’s prior knowledge/experience and the project.
- An acceptable fit between the project and the research strengths or priorities of the host department

<table>
<thead>
<tr>
<th>Acceptable</th>
<th>Poor</th>
</tr>
</thead>
</table>
| - A project without the potential to make an original contribution to the field
- An unclear research question
- Little or no engagement with relevant literature
- An inappropriate research design
- A poor fit between the project and the expertise of the proposed supervisors, or in the case of a project the applicant is recruited to, a poor fit between the candidate’s prior knowledge/experience and the project.
- A poor fit between the project and the research strengths or priorities of the host department |
