TREASURER'S REPORT

All our revenue streams (with the exception of Endowment Income and Interest Receivable - down £1.4m largely because of the completion of the Lottery funding for the refurbishment of the Arts Centre) showed healthy growth in the financial year 1998/1999. Overall, income was up by almost 8% at £161.1m and, once again, the major part of that growth arose from our earned income activities (including Research Grants and Contracts) which delivered an increase of £10.2m or a shade over 11%. To put that in perspective, these activities fuelled 86% of the total growth in income and, for the first time, their turnover broke through the £100m barrier.

At the start of the year attention was centred on the generation of research income which had, until then, been overseen by the Earned Income Group. A Research Generation Committee was formed to focus entirely on developing research income across the University and the early indications are that it is having success. New grants and contracts awarded (but not necessarily started) increased significantly, in spite of a fall in the total value of new European awards reflecting the 'funding gap' between the end of Framework IV and the start of Framework V, as did the application rates, both of which augur well for the future.

The spread of our earned income operations, including as it does activities as diverse, for example, as the operation of the campus supermarket on the one hand and the Warwick Business School on the other, is a great strength. Hospitality Services had a tough year, its trade being adversely affected by the major refurbishment of its principal facility in the Rootes building, the need to bed down some new outlets and the major capital works, happily now complete, in central areas of the campus. More than counter-balancing that disappointment were the achievements of, amongst others, the Business School, the Warwick Manufacturing Group and the conference centres. Of particular note, in contrast to many other universities, was our continued success in a difficult market, in recruiting overseas students. Income from this source rose from £8.7m to a little over £10m.

The net result was a surplus of £5.2m - down a little on the previous year but, at 3.2% of income, reasonable when viewed against the HEFCE's indicative target of 3%. Looking at the Balance Sheet, Tangible Assets show considerable growth reflecting the £15.2m building works carried out during the year as well as nearly £3m invested in new equipment. Borrowings have risen as a consequence but are still of manageable proportions. Cashflow has benefited from a more vigorous approach to the management of our debtors and creditors.

Two other initiatives of great significance were launched during the year. First, a new finance system provided by SAP was installed and though it did not go live as planned until August, and thus the benefits have yet to be felt, we believe it will provide improved management information of a quality that will further enhance the overall management of the University. This was a major undertaking and I should like to pay tribute to all those involved not only in the Finance Office but across the whole of the University. Few will escape the exercise which has placed great demands on many staff. They will endorse the view that there can be no gain without pain!

The second initiative is, of course, the birth of the Leicester Warwick Medical School. In financial terms it is likely, in the short term, to have a neutral effect but looking further ahead it will, I believe, be seen as being of seminal significance. Again, a great debt is due to those involved in its creation.

In recognition of the potential risks and uncertainties associated with the Year 2000 problem, the University has established a multidisciplinary group to identify, quantify and address potential risks. The work of the group has concentrated upon mission critical areas of the University's operations including relationships with suppliers, other relevant parties, health and safety issues and computer based systems. In addition to the aforementioned, a contingency plan has recently been developed which considers actions necessary in the period leading up to and immediately after 1 January 2000. Given the complexity of the issue, it is not possible for the University to guarantee that no problems associated with Year 2000 compliance will occur. However, the Council believes that the University will achieve an acceptable state of readiness.

We look ahead with reasonable confidence that, in spite of the difficulties and challenges the sector faces, the University of Warwick's finances, underpinned as they are by our earned income activities whose contribution we forecast will continue to grow, are in a shape that will enable it to maintain its reputation as an innovative and progressive institution.

Peter Dodd Treasurer December 1999

CORPORATE GOVERNANCE

The following statement is provided to enable readers of the Annual Report and Accounts of the University to obtain a better understanding of governance and legal structure of the University.

- 1. The University endeavours to conduct its business in accordance with the seven principles identified by the Committee on Standards in Public Life (selflessness, integrity, objectivity, accountability, openness, honesty and leadership) and with the guidance to universities which has been provided by the Committee of University Chairmen in its Guide for Members of Governing Bodies of Universities and Colleges in England, Wales and Northern Ireland.
- 2. The University is an independent corporation, whose legal status derives from a Royal charter originally granted in March 1965. Its objects, powers and framework of governance are set out in the Charter and its supporting Statutes, which was approved by the Privy Council in 1989/90 in its current form.
- 3. The Charter and Statutes require the University to have three separate bodies, each with clearly defined functions and respon sibilities, to oversee and manage its activities, as follows:
 - The Council is the executive governing body, responsible for the finance, property, investments and general business of the University, and for setting the general strategic direction of the institution.
 - It has a majority of members from outside the University, (described as lay members), from whom its Chairman and Treasurer must be drawn. Also included in its membership are representatives of the staff of the University and the student body. None of the lay members receive any payment, apart from the reimbursement of expenses, for the work which they do for the University.
 - The Senate is the academic authority of the University and draws its membership entirely from the academic staff and the students of the institution. Its role is to direct and regulate the teaching and research work of the University.
 - The Court is a large, mainly formal body. It offers a means whereby the wider interests served by the University can be associated with the institution, and provides a public forum where members of Court can raise any matters about the University. The Court normally meets once a year to receive the Annual Report and Accounts of the University.
 - A majority of the members of the Court will be from outside the University, representing the local community and other designated bodies with an interest in the work of the University, but the membership also includes representatives of the staff of the University (both academic and non-academic) and the student body.
- 4. The principal academic and administrative officer of the University is the Vice-Chancellor who has a general responsibility to the Council for maintaining and promoting the efficiency and good order of the University. Under the terms of the formal Financial Memorandum between the University and the Higher Education Funding Council for England, the Vice-Chancellor is the designated officer of the University and in that capacity can be summoned to appear before the Public Accounts Committee of the House of Commons.
- 5. Although the Council meets at least 4 times each academic year, much of its detailed work is initially handled by committees, in particular the Finance and General Purposes Committee, the Nominations Committee, the Remuneration Committee and the Audit Committee. The decisions of these Committees are formally reported to the Council.
- 6. These Committees are formally constituted as Committees of the Council with written terms of reference and specified membership, including a significant proportion of lay members (from whom the Chair will be selected).
- 7. As chief executive of the University, the Vice-Chancellor exercises considerable influence upon the development of institutional strategy, the identification and planning of new developments and the shaping of the institutional ethos. The Pro-Vice-Chancellors and the senior administrative officers all contribute in various ways to this aspect of the work, but ultimate responsibility for what is done rests with the Vice-Chancellor.
- 8. The University maintains a Register of Interests of members of the Council which may be consulted by arrangement with the Registrar.
- 9. The Statutes of the University specify that the Registrar should act as Secretary of the Council. Any enquiries about the constitution and governance of the University should be addressed to the Registrar.

RESPONSIBILITIES OF THE COUNCIL

OF THE

UNIVERSITY OF WARWICK

In accordance with the University's Charter of Incorporation, the Council is responsible for the administration and management of the affairs of the University and is required to present audited financial statements for each financial year.

The Council is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the University. It therefore ensures that the financial statements are prepared in accordance with the University's Charter of Incorporation, the Statement of Recommended Practice on Accounting in Higher Education Institutions and other relevant accounting standards. In addition, within the terms and conditions of a Financial Memorandum agreed between the Higher Education Funding Council for England and the Council of the University, the Council, through its designated office holder, is required to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the University and of the surplus or deficit and cash flows for that year.

In causing the financial statements to be prepared, Council ensures that:

suitable accounting policies are selected and applied consistently;

judgements and estimates are made that are reasonable and prudent;

applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;

financial statements are prepared on the going concern basis unless it is inapproriate to presume that the University will continue in operation.

The Council has taken reasonable steps to:

ensure that funds from the Higher Education Funding Council for England are used only for the purposes for which they have been given and in accordance with the Financial Memorandum with the Funding Council and any other conditions which the Funding Council may from time to time prescribe;

ensure that there are appropriate financial and management controls in place to safeguard public funds and funds from other sources;

safeguard the assets of the University of Warwick and prevent and detect fraud;

secure the economical, efficient and effective management of the University's resources and expenditure.

The key elements of the University's system of internal financial control, which is designed to discharge the responsibilities set out above, include the following:

clear definitions of the responsibilities of, and the authority delegated to, heads of academic and administrative departments;

a comprehensive medium and short-term planning process, supplemented by detailed annual income, expenditure, capital and cash flow budgets;

regular reviews of academic performance and bi-monthly reviews of financial results involving variance reporting and updates of forecast outturns;

clearly defined and formalised requirements for approval and control of expenditure, with investment decisions involving capital or revenue expenditure being subject to formal detailed appraisal and review according to approval levels set by the Council;

comprehensive Financial Regulations, detailing financial controls and procedures, approved by the Finance and General Purposes Committee and Council;

a professional Internal Audit team whose annual programme is approved by the Audit Committee.

REPORT OF THE AUDITORS TO THE COUNCIL

OF THE

UNIVERSITY OF WARWICK

We have audited the financial statements on pages 8 to 21

Respective Responsibilities of the Council Body and Auditors

The Council is responsible for preparing the Treasurer's Report, and as described on page 4, the financial statements. Our responsibilities as independent auditors, are established by statute, the Auditing Practices Board, the Higher Education Funding Council for England and our profession's ethical guidance.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Statement of Recommended Practice on Accounting in Higher Education Institutions. We also report to you whether, in all material respects, income from funding bodies, grants and income for specific purposes and from other restricted funds administered by the University, have been properly applied only for the purposes for which they were received, and whether income has been applied in accordance with the Royal Charter governing the University of Warwick and where appropriate with the financial memorandum with the Higher Education Funding Council for England and with the Funding Agreement with the Teacher Training Agency.

We also report to you if, in our opinion, the institutions has not kept proper accounting records, the accounting records do no agree with the financial statements, if we have not received all the information and explanations we require for our audit.

We read the other information contained in the Treasurer's report and consider the implications for our report if we become aware of any apparent misstatements or materials inconsistencies with the financial statements.

Basis of Audit Opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board, and the Audit Code of Practice issued by the Higher Education Funding Council for England. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Council in the preparation of the financial statements, and of whether the accounting policies are appropriate to the University of Warwick's circumstances consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion:

- a. The financial statements give a true and fair view of the state of affairs of the University of Warwick at 31 July 1999, and of the group's surplus of income over expenditure and cash flows for the year then ended and have been properly prepared in accordance with the Statement of Recommended Practice on Accounting in Higher Education Institutions.
- b. In all material respects, income from the Higher Education Funding Council for England and the Teacher Training Agency, grants and income for specific purposes and from other restricted funds administered by the University of Warwick, have been applied for the purposes for which they were received.
- c. Income has been applied in accordance with the Royal Charter Governing the University of Warwick and where appropriate with the financial memorandum dated July 1997 with the Higher Education Funding Council for England and with the Funding Agreement with the Teacher Training Agency.

PricewaterhouseCoopers Chartered Accountants Birmingham. 20 December 1999

STATEMENT OF PRINCIPAL ACCOUNTING POLICIES

1. Accounting Convention

The financial statements have been prepared under the historical cost convention as amended by the revaluation of certain fixed asset investments and in accordance with the Statement of Recommended Practice: Accounting in Higher Education Institutions (SORP) and applicable Accounting Standards.

2. Basis of Consolidation

The consolidated financial statements consolidate the financial statements of the University and its subsidiary undertakings, including the University Foundation, for the financial year to 31 July 1998. The consolidated financial statements do not include those of the University of Warwick Students' Union nor Warwick Students' Union Services Ltd. and its subsidiary company, as these are separate organisations in which the University has no control or significant influence over policy decisions.

3. Recognition of Income

Income from Specific Endowments and Donations, Research Grants, Contracts and Other Services Rendered is included to the extent of the expenditure incurred during the year, together with any related contributions towards overhead costs.

All income from short-term deposits and General Endowment Asset Investments is credited to the Income and Expenditure Account on a receivable basis.

4. Pension Schemes

The University participates in the Universities Superannuation Scheme (USS), a pension scheme which provides benefits based on final pensionable salary for the academic and academic-related employees of all UK universities and some other employers. The assets of the Scheme are held in a separate trustee - administered fund. Staff not eligible for membership of USS are offered membership of the University 's own pension scheme. A small number of staff remain in other pension schemes. The University's own scheme is an exempt approved pension scheme for the benefit of its non-academic staff. The scheme provides retirement benefits (based on final pensionable salary) and lump sum and spouse's death-in-service benefits. The scheme is set up under trust and the assets are held in a separate trustee - administered fund.

5. Foreign Currencies

Transactions denominated in foreign currencies are recorded at the rate of exchange ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into sterling either at year end rates or, where there are related forward foreign exchange contracts, at contract rate. The resulting exchange differences are dealt with in the determination of income and expenditure for the financial year.

6. Leases

Fixed assets held under finance leases and the related lease obligations are recorded in the Balance Sheet at the fair value of the leased assets at the inception of the lease. The excess of lease payments over recorded lease obligations are treated as finance charges which are amortised over each lease term to give a constant rate of charge on the remaining balance of the obligations. Rental costs under operating leases are charged to expenditure in equal annual amounts over the periods of the leases.

7. Land and Buildings

Land and buildings are stated at cost. Buildings are depreciated over their expected useful lives of 50 years, and leasehold land over the life of the lease. Where buildings are acquired with the aid of specific grants they are capitalised and depreciated as above. The related grants are treated as deferred capital grants and released to income over the expected useful life of the buildings.

8. Equipment

Equipment, including micro-computers and software, costing less than £15,000 per individual item or group of related items and vehicles costing less than £5,000 are written off in the year of acquisition. All other equipment is capitalised. Capitalised equipment is stated at cost and depreciated over 5 years. Where equipment is acquired with the aid of specific grants it is capitalised and depreciated as above. The related grant is treated as a grant received in advance and released to income over 5 years.

9. Investments

Endowment Asset Investments are included in the Balance Sheet at market value. Current Asset Investments are included at the lower of cost and net realisable value.

10. Stocks

Stocks include goods for resale in catering departments, bars and retail outlets and are valued at the lower of cost and net realisable value. Stocks of consumable materials are written off to revenue as incurred.

11. Long-term Maintenance

Included in the income and expenditure account is an annual charge for long-term maintenance calculated so as to equalise annual costs on the basis of the University's long-term maintenance plan. The charge is credited to a provision against which actual expenditure on long-term maintenance is met.

12. Taxation Status

The University is an exempt charity within the meaning of Schedule 2 of the Charities Act 1993 and as such is a charity within the meaning of Section 506(1) of the Taxes Act 1988. Accordingly, the University is potentially exempt from taxation in respect of income or capital gains received within categories covered by Section 505 of the Taxes Act 1988 or Section 256 of the Taxation of Chargeable Gains Act 1992 to the extent that such income or gains are applied exclusively to charitable purposes. The University receives no similar exemption in respect of Value Added Tax. The University's subsidiary companies are subject to corporation tax.

12. TANGIBLE ASSETS (CONTINUED)

Included within Fixed Assets is land relating to the site of Scarman House, a post-experience centre. Title to the Scarman House building, valued at £6.8m, is currently held by Barclays Mercantile and will revert to the University in 2011. As such the building will not be included in the consolidated accounts until this date.

The consolidated expenditure on Land and Buildings in 19	998/99 was:-
	£000
Student Residences	5,868
Retail Services/Student Union	883
Major Refurbishments	1,604
Hospitality Services	3,592

18. FINANCIAL INSTRUMENTS AND BORROWINGS

The University's borrowings are in respect of certain student residences and the Scarman House management training centre. The University takes professional advice on the hedging of interest rates on its borrowings, with a view to reducing the risk of unexpected increases in finance costs. It therefore makes decisions to fix or hedge through the use of interest rate swaps, or caps the rates on certain borrowings from time to time.

At 31 July 1999, the consolidated borrowings are analysed as follows:

(a) Borrowings analysed by maturity date

(4)	Total	Tota	ally Repayable	
		Between	Between	After five
		one and	two and	years
		two years	five years

32. PENSION SCHEMES

(a) The latest actuarial valuation available at the time of these accounts of the Universities Superannuation Scheme was at 31 March 1996.

The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return of investments and the rates of increase in salary and pensions. It was assumed that the investment return would be 8.5% per annum, that salary scale increases would be 6.5% per annum, and that pensions would increase by 5% per annum.

At the date of the last actuarial valuation, which was carried out using the projected unit method, the market value of the assets of the scheme was £12,087 million and the actuarial value of the assets was sufficient to cover 108% of the benefits which had accrued to members after allowing for expected future increases in earnings. The level of contributions paid by the employing institutions takes into account this actuarial deficiency.

The pension contribution charged in the accounts was 14% of pensionable salaries.

(b) The last actuarial valuation of the University's own pension scheme was at 6 April 1998. The pension costs were assessed using the projected unit method. The major financial assumptions used were that the long term investment returns would average 8.5% per annum compound, that long term earnings increases would average 7% per annum compound and that pensions would increase at a rate of 5% per annum compound.

The actuarial value of the assets was sufficient to cover 106% of the benefits which had accrued to members after allowing for expected future increases in earnings. To reduce this surplus the University is paying contributions at the rate of 14% of pensionable earnings from 1 January 1999. (The rate was 8% for the period 1 October 1995 to 31 December 1998). This rate will rise to 15.25% in January 2002 subject to the next

in 2001. The market value of the scheme's assets at 5 April 1999 was £48,866,240.

The University's contributions to the various schemes in the years 1997/98 and 1998/99 were:

Universities Superannuation Scheme University of Warwick Pension Scheme Local Government Superannuation Scheme Others

33. SUBSIDIARY COMPANIES

The University owns 100% of the issued share capital of 4 £1 ordinary shares of Warwick University Training Ltd. and 100% of the 125000 £1 ordinary shares of Warwick University Services Ltd., companies registered in England and operating post-experience centres in the UK. The University also holds 9831 shares of £1 each (representing 35% of the total shares issued) and a 1% debenture loan of £820,710 issued by University of Warwick Science Park Limited. The investment has been included in the accounts at nil value. The University also owns the entire issued share capital of Warwick Retail Services Limited, The University of Warwick Press Limited and Graduate Residences of Warwick Limited, all dormant companies, and 1 £1 ordinary share in Microbial Systems Limited, a biotechnology company, whose activities have been excluded from the consolidated accounts on the grounds of immateriality.

34. CONTINGENT LIABILITIES

The University has guaranteed the payments due under the lease agreements.

The University owns the entire issued share capital, consisting of ordinary shares, in Warwick University Training Limited, a company incorporated on 24 November 1989 in England. The Company's principal activity is the operation of Scarman House, a post-experience management training centre. Scarman House commenced its operations on 24 June 1991.

On 9 February 1990 Warwick University Training Limited entered into leases in respect of Scarman House and is contracted to make lease payments for 20 years commencing on 1 August 1992. The payments under the leases are dependent upon the total construction costs, including land and buildings, plant and equipment and capitalised interest, totalling approximately £10.1m.

35. ACCESS FUNDS

Funding Council Grants Interest Earned	£000 390 7	£000 190 2
	397	192
Disbursed to Students Audit Fees	(397) 0	(192) 0
Balance Unspent at 31 July	0	0

Funding Council grants are available solely for students: the University acts only as paying agent. The grants and related disbursements are therefore excluded from the Income and Expenditure Account.

36. SUBSEQUENT EVENTS

On 8 October 1999, the University drew down the second and final tranche of a £14.2m loan from Barclays Bank plc. This amount, £6.3m, is secured on certain student residences and is repayable in equal quarterly instalments over the remaing 24 years of the original 25 year agreement.

37. RELATED PARTIES

The University has no related party transactions requiring disclosure under FRS 8.

38. PRIOR YEAR ADJUSTMENT

The financial statements for the year ended 31 July 1998 have been adjusted to reflect the following prior year adjustment. The impact on retained surpluses and net assets is as follows:

	Historic cost surplus for the year ended	Net Assets	Income and expenditure at
	31 July 1998	31 July 1998	31 July 1998
	£000	£000	£000
As previously reported	5,016	68,481	66,195
Long Term Maintenance Provision	581	2,199	2,199
As restated	5,597	70,680	68,394

During the year Financial Reporting Standard No 12 (Provisions contingent liabilities and assets) was introduced for accounting periods ending on or after 23 March 1999. The long-term maintenance provision no longer satisfies the definition of "provisions" included in the standard and for this reason, adjustments have been made in respect of prior years.

The impact of this change in accounting policy on the operating result for 1999 is to increase the surplus by £115k.

INDICATORS OF FINANCIAL HEALTH

INDICATORS RELATING TO SOURCES OF INCOME

	1998/99	1997/98	1996/97	1995/96	1994/95
