- (ii) That the Fees Working Group had been tasked with detailed modelling on fees, but that there was currently no strong view on whether the University should have common or differential fees;
- (iii) That cuts to the HEFCE teaching grant will come into effect from the 2011/12 academic year whilst the increased fee income will only come into effect from 2012/13, but that Warwick is well placed to manage this;
- (iv) That the quality of students selected by the University would remain high, but with a stronger commitment and delivery of widening participation
- (v) That as a condition of increasing fees the institution will probably be required to direct greater funding to scholarships and bursaries.

REPORTED (by Professor D Haddleton):

That the University should start work on enhancing the student experience now in areas such as student feedback and that there should be a University-wide discussion on the balance of scholarships and bursaries offered by the University.

REPORTED (by Professor C Sparrow):

That the University should be discussing the potential implications for the funding of higher education following the publication of the Browne Review and the CSR in every forum already rather than waiting for the Fees Working Group to complete its detailed modelling.

That, at its meeting on 7 July 2010, the Senate considered a progress report on the implementation of the recommendations of the Harris Report on the University's constitutional arrangements, together with an oral report from Professor Mark Harrison, Chair of the Implementation Group and reported the following:

(by Professor M Harrison):

- (i) That he wished to extend his thanks to the Academic Registrar and the Chair of the Board of Graduate Studies for their assistance in the preparation of the report and its recommendations.
- (ii) That the recommendations focused on three main themes:
  - (A) The strengthening of linkages between the Centre and Departments by revising the role of the Chair of the Board of the Faculty, and by imposing greater direction on the way the University creates and distributes management information and its processes for consultation and wider dissemination.
  - (B) The development of additional management capacity at the Centre of the University (noting that a significant increase in the number of Pro-Vice-Chancellors was not seen as appropriate at this time), again by revising the role and responsibilities of the Chair of the Board of the Faculty, and by giving more discretion (within appropriate constraints) to departments over academic resourcing and teaching and learning matters.
  - (C) The need for greater delegation to departments to be accompanied by appropriate responsibility and rules and systems for risk management.
- (iii) That the successful implementation of these recommendations would rely on the positive engagement of the whole University community.

(By Professor T Docherty)

- (iv) That further consideration should be given to the nomenclature relating to proposal to use the title of "Chair of Faculty" and that the title of "Dean" would be more meaningful in an external and international context.

(By Professor C Sparrow)

(v) That every effort should be taken to ensure that the benefits of the potentially challenging changes departments would face as a result of these developments were realised and that this could only be achieved through collaborative effort and transparent communication.

(By the Deputy Vice-Chancellor)

(vi) That it was recognised that those individuals appointed as the Chairs of Faculty would require appropriate training and support in order to take on all the duties set out in the proposed job description.

(vii) That measures were already in place to take forward a number of these actions, particularly in relation to the Academic Resourcing Committee and strengthening the University's interdisciplinary approach.

The Senate resolved the following:

(viii) That the recommendations set out in the report from the Harris Report Implementation Group be approved;

(ix) That consideration be given to potentially requiring the appointment of a Deputy Chair of the Faculty Board and the mechanism and role description to implement this;

(x) That the progress in achieving the recommendations with the Harris Report as set out in the Implementation Plan outlined in Appendix B of the Implementation Group's report be reviewed by the Senate in the Autumn Term 2011.

(xi) That the possibility of Chairs of the Boards of the Faculties chairing selection committees for Professorial posts be considered as a means to provide greater capacity, noting that the Professorial appointment process was acknowledged as a critical contributory aspect to the University's future success and that the Vice-Chancellor, Deputy Vice-Chancellor and all Pro-Vice-Chancellors were currently permitted to chair panels.

RECEIVED:

The report from the Harris Report Implementation Group to Senate, paper S.37/09-10 .

That at its meeting on 2 November 2010, the Graduate Studies Committee had considered the issue of how to differentiate module approval from changes to course structures and had resolved that core modules should continue to be approved by the Graduate Studies Committee, but that optional modules should be approved within departments.
