10/14-15 Matters Arising on the Minutes

(a) Best Practice for PGR Training as related to teaching/selecting PGR tutors (Minute 64/13-14 refers)

REPORTED (by the Chair):
(i) That the report prepared in conjunction with the Chair of the Board of Undergraduate Studies would be available at the next meeting of the Board;

(ii) That work on the NUS Postgraduate Employment Charter was still in progress, but that this would be considered at the next meeting of the Board.

REPORTED (by the Human Resources Engagement Director and the Director of Warwick Employment Group):
(iii) That Human Resources and Warwick Employment Group were working together to develop the ‘TeachHigher’ service, a central portal for the management and administration of temporary academic staffing within the University, covering
both PGR students who teach and externally appointed teaching assistants;

(iv) That the service would operate as a pilot system within four academic departments during the 14/15 academic year, with the aim of further developing and improving the service during that time before extending it across the University in the next academic year;

(v) That ‘TeachHigher’ would eventually become the sole method of recruiting temporary academic staff within the University, noting its flexibility to meet both the requirements for appointing PGR students to undertake single/short-term teaching duties, and filling longer-term temporary teaching appointments, with the aspiration to operate as a commercial franchise, akin to Unitemps;

(vi) That the service would address acknowledged concerns about the lack of transparency and fairness in the current process for recruiting PGR students to teach within departments, noting that the system would make a wider pool of talent available when considering applicants for teaching positions, without preventing departments from setting prescribed person specifications appropriate to specific roles.

(b) **PGR Scholarships Competition**

REPORTED (by the Senior Assistant Registrar (Graduate School)):

(i) That the deadline for the receipt of applications for this year’s competition would be 12 January 2015;

(ii) That the Graduate School had consulted with the Chairs of the Graduate Studies Committees and agreed that the time frame for applicants to upload additional documents in support of applications be reduced from two weeks after the main application deadline to one week, noting that the final deadline would therefore be 19 January 2015.

**11/14-15 Postgraduate Taught Experience Survey (PTES) 2014**

CONSIDERED:

A report from the Chair and the Postgraduate Student Development Officer (Graduate School) on the results of the Postgraduate Taught Experience Survey (PTES) 2014, submitted to Senate (paper S.2/14-15).

REPORTED:

(i) That the response rate for the PTES survey had been 36%, representing an increase from the previous year;

(ii) That 84% of students had indicated an overall satisfaction with their course of study, exceeding the sector and Russell Group averages;
(iii) That noted areas requiring improvement were contact time, assessment and feedback, and English language support, for which all satisfaction appeared to have decreased, although comparison with earlier surveys was difficult due to significant redesign of the survey in 2014;

(iv) That engagement with departments regarding the results of the survey and steps for improvement would be coordinated with those of the NSS survey due to close correlations between results in each, noting that departments had already been provided with a breakdown of their PTES results and would be providing action plans in response to this by 17 October 2014.

RESOLVED:

(v) That the Graduate School would circulate a more detailed breakdown of the PTES results to departments;

(vi) That improvement in the provision of English language support would be taken forward as a priority area, due to the high numbers of international students admitted to the University;

(vii) That consideration would be given to the timing of the launch of the survey, noting that doing so early in the cycle may not give students sufficient time to comment meaningfully on their experience, whilst a later date could impact negatively on response rates;

(viii) That the Board did not support the release of details of non-respondents to departments to enable a more targeted approach, but that the current approach of contacting all students throughout the survey period be maintained.

12/14-15

Progress toward Strategy Targets and Planning Business for 2014/2015

CONSIDERED:

A paper from the Chair setting out the strategic priorities of the Board over the coming year (paper BGS 4/14-15).

REPORTED (by Dr J Pearson):

That there was some concern regarding reduced opportunities for Home and EU students to receive full studentships in the Sciences as a result of reform to the PGR Scholarships Competition.

REPORTED (by the Chair):

That it was important to note that the overall scholarships budget had not been cut for 14/15, noting that the University has taken necessary steps to ensure the sustainability of match funding commitments.

RESOLVED:
That the Board was supportive of consulting with postgraduate students regarding the University’s plans for improving its transferrable skills provision.

13/14-15 Chair’s Business

RECEIVED:

(a) Response to the Graduate School Review, considered by Senate in July 2014 (paper S.62/13-14)

REPORTED (by the Chair):

(i) That the University is committed to ensuring that thesis submission is achieved within the four year PhD registration period, noting that there is no expectation that the examination process be completed within this time, which was noted in the paper in error;

(ii) That declining submission rates threaten the University’s success in securing continuing research council funding, making it vital that the expectations regarding submission be understood clearly within departments and communicated effectively to students.

RESOLVED:

That the Graduate School would re-issue guidance to departments outlining the University’s expectations regarding submission within the four year registration period.

(b) Postgraduate Welcome Week

REPORTED (by the Chair):

That the Postgraduate Welcome Week had been a successful event, with high demand for the activities and events on offer.

14/14-15 Supervisory loads for research students

CONSIDERED:

A paper from the Senior Assistant Registrar (Graduate School) regarding the monitoring of supervisory loads by departments (paper BGS 5/14-15).

RESOLVED:

(a) That the Graduate School would circulate a reminder to Directors of Graduate Studies regarding the availability of the University Dashboards as a means of accessing departmental data pertaining to the supervision of PGR students;

(b) That assessment of supervisory loads be incorporated into the departmental Annual Course Review process, noting that this would provide an effective means of assessing how load is being managed
and whether any problems are arising as a result, without requiring an additional exercise to be undertaken to achieve this purpose.

**15/14-15 Absence of supervisors**

CONSIDERED:

A paper from the Senior Assistant Registrar (Graduate School) regarding action to take in the absence of absent PGR supervisors (paper BGS 6/14-15).

RESOLVED:

(a) That the Board approved the proposed statement for how to manage the absence of PGR supervisors for inclusion within all student handbooks, as set out in paper BGS 6/14-15, noting that this includes the alternative wording for the final paragraph as drafted by Professor Napier;

(b) That the statement also be adopted in respect of supervisory arrangements for postgraduate taught students undertaking supervised dissertation projects;

(c) That the Graduate School would circulate the statement to departments.

**16/14-15 Postgraduate Admissions reference requirements**

CONSIDERED:

A paper from the Senior Assistant Registrar (University Admissions) outlining potential amendments to the current policy on academic reference requirements for postgraduate taught and research student admissions (paper BGS 7/14-15).

RESOLVED:

(a) That two references would continue to be required from applicants to postgraduate research programmes, noting that this enables considered decisions to be made about an applicant’s suitability for this type of study;

(b) That one reference would be required as standard from applicants to postgraduate taught programmes, noting that departments should establish the most appropriate source of this in the circumstances, whether this be academic or employment-related;

(c) That, where appropriate, departments can elect to require a second reference for students applying to postgraduate taught programmes,

(d) That transcripts be required from all applicants to postgraduate taught programmes;

(e) That references provided via email be accepted, providing these derive from an email account connected with an official organisation.
