(b) That the notes of the extraordinary meeting of the Senate held on 14 February 2007 be approved.

47/06-07 Progress of Senate Recommendations

REPORTED:

That the Council, at its meeting on 13 December 2006, approved the recommendations of the Senate recorded under the following items:

(a) Report from the Steering Committee, item (g) Review of the School of Engineering (Minute 25/06-07 refers)

(b) Report from the Academic Quality and Standards Committee items (b), (g), (h), (i), (j) and (k) proposing amendments to Regulations (Minute 27/06-07 refers)

(e) Report from the Academic Staff Committee, item (a) and (b) (Minute 34/06-07 refers)

(f) Amendments to University Regulations (Minute 31/06-07 refers)

48/06-07 Membership of the Senate
REPORTED:

(a) That, in accordance with Regulation 2.3, a Committee of the Assembly was convened to seek to fill the vacancy in the appointees of the Assembly on the Senate for the period to 31 July 2009 for approval by the Vice-Chancellor.

(b) That, while Professor J Labbe (English and Comparative Literary Studies) had been approached to fill the vacancy in the appointees of the Assembly on the Senate, her appointment within the current academic year could not be pursued as the University Statutes stipulate that the six appointees of the Assembly must include no more than two members of Professorial staff and Professor Labbe’s appointment would be in direct contravention of the Statute as there are already two members of the Assembly on the Senate who are Professorial staff.

(c) That an election would be conducted in accordance with Regulation 2.3 to fill the remaining vacancy in the membership of the Assembly on the Senate.

49/06-07 NAGTY

REPORTED: (by the Vice-Chancellor)

(a) That, on the recommendation of the Gifted and Talented Futures Group, which includes the Chairs of the Graduate School and the Board of the Faculty of Social Studies and the Registrar in its membership, the Steering Committee had approved the release of £75K to support the development of a full business plan for the establishment of an International Gifted and Talented Student Academic at the University following the end of the current contract with the DfES for the hosting of the National Academy of Gifted and Talented Youth at Warwick on 31 July 2007.

(b) That a report on the outcome of the development of the business plan would be made at the next meeting of the Senate.

50/06-07 University Strategy

CONSIDERED:

REPORTED: (by the Vice-Chancellor)

(a) That a report on the key issues highlighted by the Senate in discussion of the document would be circulated with the Draft University Strategy document for consideration by the Council at its next meeting to be held on 21 March.

(b) That he would be visiting each academic department over the Summer Term to discuss the University Strategy and the development of the Implementation Plan.

(c) That a revised University Strategy document for 2007 to 2012 and an initial Implementation Plan will be considered by the Senate at its second meeting in the Summer Term on 4 July 2007 alongside the University Financial Plan and
that, in addition to the members of the Senate, all Heads of Departments will be invited to attend the meeting for these items.

(d) That the final version of the University Strategy document will be considered by the Council at its meeting on 11 July.

RESOLVED:

(a) That the Senate welcome and support the new draft University Strategy and in particular the values and goals made explicit in the document.

(b) That it was the view of the Senate that the tone and narrative of the document set a very positive context of vibrancy, excitement, aspiration, commitment and innovation within which to frame the University’s future goals and objectives and that it was expected that these would be embraced and welcomed generally by University staff and students as representing a challenging but attainable and rewarding future for Warwick.

(c) That the objective of becoming a universally acknowledged World Centre of higher education by 2015 and in, at least, the top 50 of world universities be supported strongly while noting that indicators and measures of what represents a ‘top 50’ University would need to be developed.

(d) That consideration be given to making the following proposed revisions to the draft University Strategy document as discussed at the meeting:

(i) Re-examining how the University express its aspirations to appoint the best possible staff in all categories, including staff with the potential to achieve as well as those who have a track record of achievement.

(ii) Reviewing the University’s stated aspirations and goals relating to the improvement of the physical estate to meet its academic objectives.

(iii) Reviewing how the document as a whole conveys a sense of continuity in rehearsing the University’s goals and the means of achieving those goals.

(iv) Reviewing how the document acknowledges the fact that the University has four campuses, including the main campus, the Warwick HRI sites at Wellesbourne and Kirton and the University Hospital at Walsgrave, and how this might be exploited as an opportunity and strength.

(v) Strengthening section 2 of the document relating to making the Warwick teaching and learning experience unique, particularly in the light of the current review being undertaken by the Pro-Vice-Chancellor (Teaching and Learning).

(vi) Reflecting in the text on how the changing nature of academic appointments, in particular staff appointed to research positions in interdisciplinary Research Centres, could be expected to change the academic and physical culture and shape of the University.

(vii) Reviewing how the ‘greening’ of the University could be better integrated within the University’s Teaching and Research activities.
RECEIVED:

REPORTED: (by the Vice-Chancellor)

That the EPSRC had subsequently decided to apply the cuts to research grant funding rather than doctoral training and that it seemed unlikely that the complaints expressed by Higher Education Bodies about the revisions to the DTI budgets, including those of the Russell Group, would be addressed by the Government.

(ii) Research Grant and Contract Income

CONSIDERED:

A report from the Steering Committee on its consideration of a report on the current portfolio of research activity and income for the University for the first quarter of the financial year 2006/07 and implications for the 2006/07 research income forecasts and budgets (SC.137/06-07).

REPORTED: (by the Director of Finance)

That it was imperative that research income across the University increase in current and future financial years, in terms of the number of research grants awarded and the volume and size of those awards, particularly in view of the increased use of metrics in future Research Assessment Exercises.

(iii) Reform of Higher Education Research Assessment and Funding and Peer Review

CONSIDERED:

(A) A letter from the UK Research Councils inviting the University to submit an institutional response to its consultation on the RCUK Efficiency and Effectiveness Peer Review Project together with a copy of the consultation document and the executive summary of the RCUK report on the efficiency and effectiveness of peer review (SC.36/06-07).

(C) The University’s response to the RCUK consultation on the RCUK Efficiency and Effectiveness Peer Review Project (SC.172/06-07).

REPORTED: (by the Vice-Chancellor)
That it was likely that increased use of metrics for allocating research funding would be introduced sooner than had been anticipated and that this could be expected to have a particular impact on STEM subjects.

(b) Midlands Physics Consortium

CONSIDERED:

A report from the Steering Committee on its consideration of a copy of a letter from the HEFCE to the Vice-Chancellor of the University of Birmingham providing formal notification of the release of £3,937,423 in funding from the HEFCE Strategic Development Fund to support the Midlands Physics Alliance and setting out the terms of conditions of this funding (SC.181/06-07).

(ii) That study leave provision and expectations concerning the take-up of study leave be addressed in the annual performance reviews to be introduced for all members of academic staff.

(iii) That it be noted that it was University policy that all eligible members of academic staff would take up study leave and that the issues raised concerning the low take-up of study leave opportunities would continue to be pursued.

REPORTED: (by the Vice-Chancellor)

That eligible members of academic staff should be encouraged to take advantage of the opportunity to take up their study leave entitlement
whenever this was possible in order to support the enhancement of their research profile.

(e) **Warwick Arts Centre: Future Plan 2006-2010**

CONSIDERED:

A report from the Steering Committee on its consideration of the Future Plan for the Warwick Arts Centre for the period 2006-2010 (SC.157/06-07).

RESOLVED:

That the Senate record its best wishes for the Director of the Arts Centre who had recently returned to work following a brief period of sick leave.

(f) **Coventry Business Improvement District**

CONSIDERED:

A report from the Steering Committee on its consideration of a paper on the proposed establishment of a Coventry Business Improvement District (BID) (SC.222/06-07) including the resolution of the Committee that the University vote against the proposed establishment, and noting that should the BID proposal be approved following the formal balloting process the University would remain liable for a payment to the BID of £25K per annum throughout the lifespan of the BID plan.

That the establishment of the Coventry Business Improvement District had been approved with a majority vote of 53% and that the University would be discussing with Coventry City Council what additional services the University would receive for its £25k per annum required contribution.

(g) **Warwick Institutional Repository**

CONSIDERED:

A report from the Steering Committee on its consideration of the proposals for the establishment of an institutional digital repository for the University (163/06-07) including the following resolutions of the Committee:

(i) That the Steering Committee approve in principle the establishment of a Warwick institutional digital repository as set out in paper SC.163/06-07, it being recognised that the establishment and operation of the repository might necessitate the allocation of additional resources.

(ii) That a compulsory approach to content deposit be implemented in the first instance, responsibility for the posting of content to be delegated to a nominated contact within each academic Department; it being noted that a number of research funding bodies have mandated their award-holders to deposit their research outputs in digital repositories and on the understanding that this approach would be reviewed in six months’ time.
(iii) That the proposal for the establishment of the Warwick institutional repository be incorporated into the Library Five-Year Plan for consideration in the University’s annual financial and strategic planning process.

REPORTED: (by the Vice-Chancellor)

That it was not the intention of the University to make compulsory, at this stage, the posting of substantial pieces of work such as monographs where this was not required by an external funding body.

RESOLVED:

That the University Librarian be requested to review the potential issues that publishers might raise in respect of the University posting research and teaching outputs on the Warwick Institutional Repository.

(c) National Quality Assurance Framework: Consideration of External Examiners’ Reports

RESOLVED:

(i) That, in the light of the recommendation from the HEFCE and its Quality Assurance Framework Review Group that HE institutions should prepare to share external examiners’ reports as a matter of course with the institution’s student representatives, Departments be asked to confirm that external examiners’ reports are discussed at Departmental
