1/18-19 National Student Survey (NSS) Outcomes and TEF Update

CONSIDERED:

(a) A report briefing members of the Senate on the results of the NSS 2018 and related actions (S.1/18-19 {restricted}), together with an oral report from Professor Chris Hughes, Pro-Vice-Chancellor (Education) and a presentation from Dan Derricott, Assistant Registrar (Teaching Quality);

(b) An oral report from Professor Chris Hughes, Pro-Vice-Chancellor (Education) and Katharine Gray, Senior Assistant Registrar (Teaching Quality) on the development of the Teaching Excellence Framework;

REPORTED: (By D Derricott)

(c) That overall satisfaction was at 84.6% in the Warwick NSS 2018 and that whilst this was slightly down on the previous year, in the context of a national decline in overall student satisfaction, the University was in line with the sector average on teaching, organisation and management and learning resources;

(d) That areas identified for improvement included the following:

(i) That the University’s courses were intellectually stimulating but would benefit from more impactful delivery and greater practical application. This would be addressed through the Academic Promotions Framework, the Review of Assessment, the Employability Strategy and the creation of the new Student Opportunities Division;

(ii) That more could be done to help students achieve higher grades. This would be addressed through the Review of Assessment, simplifying the University’s regulations, removing barriers to success, adopting more effective and efficient assessment strategies and standardising personal tutoring;
(iii) That enhanced support from staff, particularly in relation to supporting students' study choices, would be made available to more students through the Personal Tutoring Review, the Academic Promotions Framework, peer observation of teaching and module evaluation;

(iv) That students valued the choice and flexibility within their courses, but navigating this could be too complex and this could be improved via the earlier registration of module selections, the module approval process and catalogue, a review of the Credit and Module Framework and the potential implementation of a common tariff, the course approval process, module evaluation and personal tutoring standardisation;

(v) That students knew they could provide feedback but it was not as clear to them that staff always valued or acted upon it and the opportunity to provide feedback sometimes came too late for a direct impact to be felt by the current cohort. This could be addressed through the student communication strategy, work of Student Engagement Co-ordinators, the student surveys strategy, survey action plans and the Students' Union’s project to transform student representation and agency.

REPORTED: (by K Gray)

(e) That subject-level TEF would be introduced in 2019/20 and that it was a condition of registration as a higher education provider that all providers participate in TEF;

(f) That the Teaching Excellence Group (TEG) meetings would take place with 33 departments over the Autumn term, noting that the process would combine the Education Experience Monitoring (EEM) and TEF meetings held in 2017/18 to monitor education experience and outcomes and to support enhancements;

(g) That the priority of the TEF Strategy Steering Group over the 2018/19 academic year would be to consider non-continuation rates, noting that there were a number of work-strands being considered as part of the Widening Participation strategy development;

(h) That the University intended to hold a mock subject-level TEF exercise in the Spring term of the 2018/19 academic year, pending the release of the specification for the second stage of the subject-level TEF pilot.

REPORTED: (by Professor P Thomas)

(i) That Research Excellence Group (REG) meetings and mock TEF meetings would both take place during the Spring term 2019, noting that the coordination and timing of both sets of meetings with departments and related preparation should take place to avoid clashes;

REPORTED: (by Professor C Hughes and K Gray)

(j) In response to a query from K Ireland, that PTES outcomes and ITLR follow-up would be provided to departments where applicable;

REPORTED: (by the Provost and D Derricott)

(k) In response to a query from P Trimmer regarding the level of casualisation in departments and its impact on NSS scores, that the impact of casualisation
had been considered as part of the STP review, which noted some consistency in the level of casusalisation across departments;

(l) That there were three outlying departments, of which one was performing well in the NSS, but the other two were performing less well.

REPORTED: (by the Provost and Professor C Hughes)

(m) In response to a query from P Trimmer regarding whether the University had considered allowing teaching staff to take a ‘teaching sabbatical’ that the University had started to review practice at other institutions in this area, noting that this work was prompted by the Academic Processes Review Group, which was also considering wider issues relating to study leave and grading structures.

REPORTED: (by the Group Finance Director and the Provost)

(c) That Assembly members were asked to vote on whether to endorse the final report from the Senate Sub-Group on Statute 24 and associated proposals, noting that, following discussion, the motion was passed with a majority (128 for, 61 against and 35 abstentions).

10/18-19 Revised Charter, Statutes and Ordinances

CONSIDERED:

(a) Revised Charter and Statutes (S.5/18-19 {restricted}).

(b) Revised Ordinances (S.6/18-19 {restricted}).

REPORTED: (by the Registrar)

(f) In response to a query from Professor S Jacka, that in a legal context the verbs ‘shall’ and ‘will’ both implied the same level of imperative;

REPORTED: (by the Secretary to Council and the Vice-Chancellor)

(g) In response to a query from Professor S Jacka, that Statute 8 would be amended to clarify that the membership of the Assembly would be determined jointly by the Council and Senate to ensure no ambiguity with Ordinance 6;

(h) That other minor grammatical clarifications to Ordinance 11 would be discussed with Professor S Jacka outwith the meeting;

REPORTED: (by the Provost)

(i) In response to a request from P Trimmer that consideration be given to removing from the revised Statute 11(3) the following section:

‘noting that there are exceptions to this provision, such as, for example postgraduates who teach and those appointed to provide cover for a limited time, for example maternity leave cover’
that the wording of this clause, as circulated in advance of the meeting, had been agreed with Trades Unions;

(j) In response to a query from P Trimmer regarding protections for professional services staff, that Statute 11 and Ordinance 11 both related to matters of academic freedom and hence academic staff, however some of the new equivalence in protections for professional services staff were articulated in the Policy Framework;

RECOMMENDED: (to the University Council)

(k) That the draft Charter, Statutes and Ordinances as set out in S.5/18-19 and S.6/18-19, be approved for submission to the Privy Council to commence the approval process, subject to the amendments agreed in the meeting.

CONSIDERED:

A report from Professor Chris Hughes, Pro-Vice-Chancellor (Education) and the Deputy Academic Registrar on the implementation of the Academic Governance Review, approved by the Senate in July 2017, (S.8/18-19), noting:

(a) That the report had been brought forward in line with the recommendation of the Senate that a look back be conducted 12 months after implementation;

(b) That new structures appeared to be settling whilst noting that some challenges remained for Faculty Education Committees which were still in their infancy, though now developing a greater sense of role having brought together former undergraduate and graduate studies committees;

(c) That outstanding questions remained which would be considered during the academic year 2018-19;

(i) the appropriate on-going location for First Year Boards of Examiners;

(ii) the oversight of policy and activities relating to examinations, following the conclusion of the Review of Assessment;

(iii) the interface of the Board of Graduate Studies with Faculty Education Committees;
the potential to create a new body with responsibility for regulatory oversight which might meet once per year, with a view to considering and approving changes to Regulation for the subsequent academic year.

(d) That Terms of Reference for the Education Executive had been developed in the light of its first year of operation which were recommended for approval.

REPORTED: (by Dr D Britnell)

(e) That the high volume of undergraduate specific business considered by Faculty Education Committees each term affected how much attention those committees could devote to postgraduate business;

REPORTED: (by the Deputy Academic Registrar)

(f) In response to a query from Professor P Roberts, that the Faculty Education Committees could consider, as an explicit agenda item at their Spring term meetings, expectations of managing business and how the Board of Graduate Studies could work with them on postgraduate business;

RESOLVED:

(g) That the Terms of Reference for the Education Executive, as set out in S.8/18-19, were approved.

13/18-19 Student Admissions Update

CONSIDERED:

A report from the Assistant Director, Student Recruitment, Outreach and Admissions Office (SROAS), setting out the University’s current position with respect to student admissions to the University for the 2018 cycle (S.9/18-19 {restricted}).

REPORTED: (by the Provost)

(a) In response to a concern expressed by L Jackson regarding the increase in student intake and its implications for the University’s infrastructure, that University planned the its intake to be as close to target as possible, but noting that the final numbers in the 2018/19 were manageable for the University;

REPORTED: (by Professor C Sparrow and Professor J Smith)

(b) That further information regarding students’ entry qualifications and how these related to students’ subsequent performance on their courses of study would be helpful.

14/18-19 Impact of Industrial Action

CONSIDERED:

A report from Professor Chris Hughes, Pro-Vice-Chancellor (Education) and the Deputy Academic Registrar, on the impact of industrial action during the 2018/2019 academic year, proposing changes to Regulation 41 (S.10/18-19 {restricted}), noting:
(a) That departments had been able to make awards to all students whom they expected to graduate from undergraduate courses in summer 2018 and that no student had presented an academic profile from which marks for assessed work or examinations were missing;

(b) That there was no evidence of grade inflation at the upper end of the award spectrum;

(c) That departments applied all regulations and conventions appropriately and should be able to demonstrate this in the event of external audit;

(d) That a data report specification and guidance should be developed during the current academic year and be made available to academic departments for completion and scrutiny in July 2019, as part of the Sub-group’s usual consideration of undergraduate awards on behalf of the Senate;

(e) That it be noted that a report had been prepared for a meeting of the Academic Quality and Standards Committee to be held imminently which summarised feedback from External Examiners on undergraduate awards and that this offered an important reference point for the University in seeking assurance of the necessary confidence in its awards.

REPORTED: (by the Deputy Academic Registrar)

(f) In response to a query from L Jackson, that the reason the reference to ‘disruption’ had been changed to ‘jeopardised’ in the preamble to Regulation 41 was that this Regulation was invoked prospectively;

(g) In response to a query from Professor V Kalra, that in spring 2018 Regulation 41 was invoked in mid-March 2018 once the University had started to receive resignations from External Examiners and it became clear that the scale of the action would prove disruptive;

REPORTED: (by Professor L Roberts)

(h) That the phrase “with the student’s consent” should be added to the end of clause 4(e) to ensure that the alternative marks as proxies would not be used if a student did not consent, noting that students sometimes decided to take calculated risks in formative assessments for sound developmental reasons which might mitigate against their subsequent use in a summative context;

REPORTED (by: P Trimmer)

(i) That the proposed changes to Regulation 41 appeared disproportionately strong in the light of evidence about the number of associated appeals and complaints;

REPORTED (by Professor D Branch):

(j) That had the period of Industrial Action continued into the summer term of 2017/18, a significant number of students would have been at risk of being unable to graduate, hence the proposed changes to Regulation 41 were entirely proportionate;
That the low levels of strike-related complaints and appeals could be attributed to measures the University had put in place which were now reflected in the revised Regulation 41 and which provided Heads of Departments with appropriate tools with which to secure the student experience;

REPORTED (by Professor C Hughes)

That the proposed revisions to Regulation 41 had been requested by departments and implemented in Spring 2018 for precisely this reason and it was now appropriate that they be codified in regulation;

REPORTED (by the Deputy Academic Registrar):

In response to a question from Professor Z Newby, that the turnaround period for feedback on assessed work would commence from the actual date of submission, noting that departments may have needed to amend the submission date;

RESOLVED:

That further minor revisions to Regulation 41, reflecting feedback from the Senate would be circulated following the meeting for approval by correspondence.

Update on the Review of the Global Research Priorities (GRP) Programme

CONSIDERED:

An oral report from Professor Pam Thomas, Pro-Vice-Chancellor (Research).

REPORTED: (by Professor P Thomas)

That the GRP Programme had been created in 2011 and so had been running for 7 years with ARC funding;

That the Review of the GRP Programme had been commissioned to consider closely its activities and to refresh how it is presented to external audiences;

That a working group had been convened to conduct the review, comprising Professor P Roberts, Professor C Lury, Professor S Jarvis, Professor Jacqueline Hodgson, Professor Peter Scott, Dr Catherine Cochrane and Carole Harris (secretary);

That Sarah Fulton Tindall had been employed by the working group as an external consultant between May and September 2018. Sarah had consulted with a range of internal stakeholders, and had also been in contact with Imperial College London, University of Manchester and University of Exeter to investigate how they approached their institution-wide research themes;

That an online survey took place between July and August 2018, which was circulated to 2000 Warwick academic staff and to all Warwick PhD students, noting that the survey generated 510 responses;

That feedback received from other universities indicated that signature activity such as the GRPs was important but there was some lack of clarity over their activities, hence the review;
(g) That the working group would formulate recommendations which would progress to the Research Committee, after which further consultation with the University community would take place from January-April 2019.

(h) That the results of the consultation would then be considered by the summer term meeting of the Research Committee and then the Senate;

(i) That it was anticipated that the refreshed programme would be launched in August 2019.
