Professor Adi Shamir

Adi Shamir is an Israeli cryptographer and co-inventor of the Rivest–Shamir–Adleman (RSA) algorithm. A former researcher in computer science at Warwick, he has made numerous contributions to the fields of cryptography and computer science. He won the ACM Turing Award and was elected a Foreign Member of the Royal Society (ForMemRS) in 2018 for contribution to the improvement of natural knowledge. He was also made a Member of the American Philosophical Society in 2019.
