

## Platform Engineer (LegalTech)

### Job Description

We are looking for a motivated student to join our team as a 'Platform Engineer' and work on cutting-edge legal technology. As a Platform Engineer, you'll work alongside talented AI Engineers and contribute to building scalable infrastructure and innovative backend solutions for AI-powered legal data platforms. This role offers hands-on experience with advanced AI technology, the chance to make an impact in a rapidly evolving industry, and the potential for a competitive full-time offer upon graduation.

### Responsibilities

- Design and implement scalable backend systems for high-performance data processing and analysis.
- Develop and optimise microservices architecture tailored for AI-driven legal applications.
- Collaborate with AI engineers to ensure seamless integration of machine learning models with our platform.
- Monitor system performance and troubleshoot issues to maintain system reliability.
- Work on data pipelines, APIs, and cloud infrastructure to support real-time AI features.

### Requirements

- Studying Computer Science, Engineering, or a related field, with experience in backend development.
- Familiarity with microservices architecture, cloud platforms (Azure), and containerisation (Docker, Kubernetes).
- Strong programming skills in Python, Node.js, or a similar language.
- Knowledge of database management (SQL/NoSQL) and API development.
- Ability to work both independently and collaboratively in a fast-paced environment.

### Why Join Us

- This is a rare opportunity to get hands on experience in an industry that is on the brink of a technological revolution.
- Work with and learn from an experienced team working on exciting tech with real-world application.
- Opportunity for a competitive full-time position post-graduation.
- Join the startup culture, with a mission-driven team passionate about innovation and thinking outside the box.

If you're excited about the chance to work on meaningful projects in a high-growth startup and want to be part of a transformative journey in legaltech, we'd love to hear from you!
