## A.C.T App Mission Statement

We are focused on ensuring valuable access to diverse ethnic populations and representation in clinical trials, enhancing efficacy and safety through community-based approaches, and connecting patients and sites to the industry. We are Changing the landscape of clinical trials from a siloed process to a community-based professional and verifiable approach.

Next Stage Objective:

- Increase App functionality to have the following features:
  - Country Search, Analytics on patient outcomes
  - Podcast / Educational section for the latest updates on therapeutic / disease areas.
  - Provide the opportunity to advertise/connect to Pharmacy outlets.
  - Ultimately one-stop shop for Clinical Trials
