

**This room is equipped with a MEETING OWL PRO**

**What is the Meeting Owl Pro?**

The Meeting Owl is a 360-degree camera, mic, and speaker which creates the experience of in-person participation for hybrid meetings (where some participants are attending virtually, and some in person).

**How do I use it?**

Simply plug the Owl into your laptop and start your virtual meeting. Choose the Owl as your audio/video device for the speaker, microphone, and camera functions.

**Information and support**

Our AV team have resources on the Meeting Owl here:

This video by Owl Labs demonstrates how to use the Owl for a hybrid Microsoft Teams meeting:
