

# 10a - Warwick MyFiles - access files off campus

MyFiles provides access to your files whilst away from your office; via a web page, or mapping a drive via WebDAV.

**MyFiles Web - <https://myfiles.warwick.ac.uk>**

Myfiles web offers flexible web browser access to your IT Services managed filestore – your H: drive (and for staff, your M: shared drive).

Sign in via <https://myfiles.warwick.ac.uk> to view, upload and download your files, useful for quick access on computers or mobile devices but not suitable for sustained periods of remote working.

**MyFiles WebDav - Windows 10, Mac OSX 10.12 & above**

Native file and folder access via 'My Computer' or the Mac Finder.

- There is no software to install
- Works on or off campus on computers and mobile devices

<https://www.warwick.ac.uk/services/its/serviceessupport/datastorage/myfiles/myfiles-webdav>

Follow the instructions for your particular operating system. For Windows 8 and 10 this involves mapping a drive. For Mac and Linux there are separate instructions on the webpage.
