

3c - Endnote/Endnote Online

What is Endnote?

EndNote is software which helps you to organise your references and to automatically format citations, reference lists and bibliographies in Word. It can be used on both Windows PCs and Macs.

Endnote Online

Sign up for a free EndNote Online account from the webpage

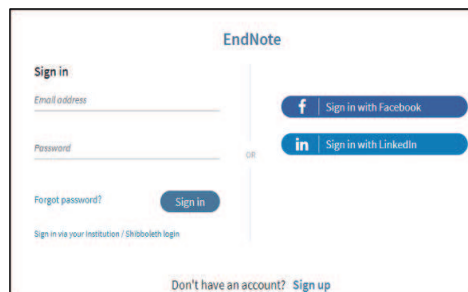

<https://warwick.ac.uk/services/library/students/endnote>

Click the Access EndNote Online button.

The webpage also has useful information and help for EndNote Online accounts, and also for the EndNote Desktop software.

The accounts last for one year, so you need to log in via the above button to reactivate the account at the end of that period.

When you have finished your studies at Warwick, you can keep your EndNote Online account. Your references will remain, but you will have access to less referencing styles. If you registered with a Warwick email, you may want to change to a personal account in case you need to request a password reminder.

This is an external service provided by Thomson Reuters.

The password you set here is not linked to your Warwick ITS password.

The shortcut to the login screen is www.myendnoteweb.com - if you forget the password, click the Forgotten Your Password link and enter the email address you used to set up the account, and Thomson Reuters will email a new password.

EndNote Online support

The library offer support for EndNote Online – email your query to endnoteweb@warwick.ac.uk

The library also offers Workshops for EndNote Online

<https://warwick.ac.uk/services/library/students/endnote/endnote-workshop/>
