Polymerization is...¹  
“Quotation”¹ |
| Edited book    | *Metal-catalyzed Cross-coupling Reactions*, ed. F. Diederich, P. J. Stang, Wiley-VCH, Weinheim, 1999. | If a reference has 2 authors, give both names joined “and”. If a reference has more than 2 authors, give only the first name listed, followed by “et al.” For co-authors use “and colleagues”. | Diederich et al. argues that...²  
The role of metal-catalyzed methods ...²  
“Quotation”² |

**General notes:**

If you are unsure about the accuracy of any part of the reference or information is missing but you can make an “educated guess”, i.e., the year of publication or the publisher, you can put square brackets [ ] around the information to indicate that you are not 100% certain about this information.
