

You are invited to attend a training course held at the University of Warwick – Polymer Characterisation Research Technology Platform, in partnership with Agilent Technologies LDA UK Ltd, on the 6-7th December 2017.

The course will combine lecture training with hands on demonstrations and experience in a state of the art GPC/SEC laboratory. The lectures and demonstrations will be given by experts in this field from both Agilent Technologies and the University of Warwick.

Who Should Attend?

Analysts, quality control engineers, managers or researchers who have an interest in GPC/SEC or currently using the technique. The course focuses on providing and improving overall skills set.

Reasons to Attend

- It will equip you to produce and analyse data
- Enable you to optimize application conditions and work flow
- You will receive practical advice to get reproducible and accurate results
- Learn tricks of the trade to enhance your systems precision and sensitivity
- Learn troubleshooting strategies
- Experience a networking environment/face to face contact with experienced practitioners and providers

The cost of this course is £700 + VAT per person. For more information or to register for this course, please email Daniel Lester directly. Furthermore, links are provided for accommodation at the University of Warwick here: <https://bandb.warwick.ac.uk/>

Kind Regards,
Daniel Lester
