Welcome to the December edition of the Trusted Research Newsletter, and the last newsletter of 2025. Moving forward, the newsletter will be published on a bi-monthly basis, with the next edition due out in February 2026.

UPDATES TO THE CONTROL LISTS

The Export Control Joint Unit (ECJU) has amended the Export Control Order 2008, the assimilated Dual-Use regulations and the assimilated Torture Regulations. These amendments update and align the UK export control framework with international commitments. Of most note, ECJU are deleting the national controls on sensitive emerging technologies (PL9013, 9014 and 9015) and replacing them with new “500 series” entries in the Dual-Use regs. These updated regulations will come into force on 16 December 2025.

The RG&C team are currently reviewing the [updates](#) to ensure there is no disruption to your research

TRUSTED RESEARCH TRAINING FOR PGRS

The RG&C team are developing a new Trusted Research training session to support PhD researchers across the STEM departments. The team have developed a short survey aimed at PhD researchers which will help to streamline and inform the information provided in the training. Computer Science, Maths and Stats PhDs have already provided input, and it would be very beneficial to canvas the rest of the STEM PhD community. Please share this survey with your researchers: [Trusted Research Training Survey – Fill out form](#)

RG&C REMINDERS

- Take a moment with a hot drink to complete our festive Trusted Research [wordsearch](#), available online (hopefully until the end of December) and attached to the second page of this newsletter.
- If you need to contact Research & Impact Services for any reason, please visit our [contact web page](#)
- We hope you have a restful holiday period and look forward to working with you again in 2026!

In this month's issue:

- **Updates to the Control Lists**
- **Trusted Research Training for PGRs**
- **RG&C reminders**
