- [Working as an international student](#)
- [Working after studies for international students](#)
- We recommend you attend the [Student Visa Advice Service](#) events.

Here's a paragraph, approved by Student Visa Advice Service, that you can include in future cover letters to reassure recruiters about your eligibility.

'[The graduate route](#) is an unsponsored route for international students to work in the UK. It was launched in February 2020. This enables international students to remain in the UK and work at any skill level for two years after they have completed their studies (or three years if they have a PhD). This student will be eligible to apply under this route once their degree has been conferred. After the course end date, students can start working full-time on their student visa and will have the right to continue while the UKVI is processing their graduate route application.'

Career Support for Non WBS students
