CHARACTERISTICS OF SOL

1. Take active responsibility for learning - almost total control
2. Identify own needs: set their own purposes
3. Generate own strategies using a wide variety of resources
4. Evaluate quality of outcomes
5. Review the whole process
6. Learn language for learning
7. Challenge Robotic skills
8. See learning as a continuous process and able to challenge present level of skill

Once process is internalised then the learner can converse with themselves about their own learning
