Tier 4 — visas for working in the UK during studies

• **Your work permission is clearly stated on your visa/BRP**

• **With certain restrictions:** cannot fill a full time/permanent position; cannot be self-employed or engage in business activity; cannot work as doctor/dentist in training, professional sportsperson or entertainer.

• **For Master’s students:** can work (including voluntary work) up to 20 hours per week (**Monday to Sunday as of 6 April 2017**) during course registration period. After the ‘course end date’ in CAS, can work full time but must revert back to 20 hours if need to resit/resubmit/extend (note not all employers recognise this).

• **Work placement:** a possibility if considered an integral and assessed part of the degree

• **Evidence of work permission:** BRP card, or, Tier 4 visa in a current passport. May request a ‘status letter confirming work permission’ from Warwick Immigration website.

• **Volunteering:** no restrictions on how much hours but different to ‘voluntary work’, or ‘unpaid work’- if unsure, stick to ‘20 hours per week’
The conditions of a General Student or Tier 4 (General) visa dictates that you must not:

Fill a full-time permanent vacancy
• Be self-employed or engaged in a business activity (more information)
• Be employed as a doctor or dentist in training (unless on a recognized Foundation Programme)
• Be employed as a professional sportsperson or entertainer
• “Engagement in a business activity” is defined in the Tier 4 Policy Guidance (paragraphs 320, 321, 322 and 323) as ‘working for a business in which you have a financial or other significant beneficial interest in a capacity other than as an employee’.

Work a maximum of 20 hours per week during term-time – *Term time is only for Undergraduate students and not for Masters/PHD/Research students.*
• The 20 hours is the total limit and it is not 20 hours for each employer/job. If you are working for multiple employer or at multiple jobs, the total hours should still not exceed 20 hours per week
Working During Studies

Where you are following a course of degree level study or above, excluding a foundation degree, the following work is usually allowed - Always check your Visa Vignette or BRP card first in case there is an error on it:

- Part-time during term-time, that is, no more than 20 hours per week, which is defined by the Home Office as Monday to Sunday – Please be aware the Masters and PhD students do not have term-time.
- Full-time during vacations - This does not apply to Postgraduate students - see below
- Full time on a work placement provided that it is an assessed part of the course and is not more than 50% of the total length of the course

Where you are following a course of study below degree level, including a foundation degree, the following work is usually allowed - Always check your Visa Vignette or BRP card first in case there is an error on it:

- Part-time during term time, that is, no more than 10 hours per week which is defined by the Home Office as Monday to Sunday
- Full-time during vacations
- Full time on a work placement as an assessed part of a course
Tier 4 – Use your current visa for internship or job offer

- Use the 4 months ‘wrap around’ period to do short work placement/internship
  - Masters students who started their course in Sep/Oct 2018, get 6 months wrap around period after their original course end date (see CAS for end date)
- No requirement for sponsorship during this period
- Same work restrictions apply (as work during studies)
- May then switch into Tier 5 (Government authorised exchange) if certain requirements met
- May switch into Tier 1 (GE) or Tier 2 if certain requirements met
Points based system (PBS)

- Five ‘tiers’ for work or study

  - Tier 2: Skilled Workers with a Job Offer
  - Tier 3: Low Skilled Temporary Workers (inactive)
  - Tier 4: Students / Doctorate Extension Scheme
  - Tier 5: Temporary Workers and Youth Mobility

- Sponsor and CoS required (except Tier 1 & certain category of Tier 5)
Tier 4 – Doctorate Extension Scheme (DES)

- **What:** 1-year Tier 4 extension sponsored by Warwick to work/look for Tier 2 sponsor (not tied to any employer), from the ‘expected award date of the PhD’.
- **Who:** students who have undertaken and near the completion of a PhD (or other doctorate level qualification) (not MPhil), and their dependents (spouse/partner, children)
- **Where:** must submit visa application in the UK
- **How:** submit ‘express of interest’ form when you know the viva date and it is within 2 months to the viva date; make an appointment with an International Student Adviser, submit application within 60 days before ‘expected degree award date’.
  - If the outcome of your VIVA is corrections then your end date will change depending on the type of corrections hence you will have to calculate the 60 day period according to the new expected degree award date.
- **When:** can start working full time as soon as PhD is awarded
- **Type of Work:** any but NOT as doctor/dentist in training, professional sportsperson or coach

Resident Labour Market Test (RLMT)

In order to pass the resident labour market test, an employer must have advertised the job in an appropriate way for the sector, and be able to show that no suitably skilled settled worker can do the job. The Home Office decides where the employer must advertise the job, for how long, and the information that must be included in the advertisement. Settled workers are British citizens, other European Economic Area nationals, British Overseas Territories nationals, those with indefinite leave to enter or remain and those who have leave under the UK ancestry provisions.

You can find detailed information about advertising requirements in the Guidance for Tier 2 and Tier 5 sponsors.

Tier 2 employers can offer a job to some people without having to meet all of the provisions of the resident labour market test. This applies to you if you fall into one of the following categories:

• Your job is on the shortage occupation list for the UK (or for Scotland only if you are going to work in Scotland); or
• Your job is on the list of PhD level jobs (see above); or
• You meet all the requirements of the post-study work exemption (see below); or
• Your salary will be £159,600 or higher; or
• You will be continuing to work as a doctor or dentist in training, or you will be working as a specialty doctor in training and your wage and training costs will be met by the government of another country; or
• You are applying for leave in order to resume a post in a higher education institution, and you will be employed by the same sponsor as under your previous grant of Tier 2 (General) leave and your break in employment was solely due to a period of academic leave; or
• Your job is a supernumerary research position and either the funding is not transferable (you are named on the award), or by your sponsor, where you have been selected on the basis of your own research proposal and the funding of the research is secured in an agreement between the sponsor and a third party organisation, or you are continuing work that was initially funded in such a way.
